Don't have instructors that think yelling and telling you to shit or get is the way to treat students. My wife quit due to the instructor which cost me even more money!
11/12/2021	This course in my opinion should be mandatory. As a first time rider, the information and hands on training provided to me, has proven to be priceless. It has given me the confidence to ride in an extremely safe manner.	By offering the scholarship, it helps riders who may be on the fence to take the course by removing cost as an obstacle.	And then some. As previously mentioned, the course is invaluable to a new rider like myself.	Initially it did, but by reducing the cost with the scholarship, it removed cost as a barrier, and made it an easy decision. I know how to check it before riding so I experience fewer problems while riding.	The scholarship made the class more affordable, thus I could afford proper protective riding gear.	I expected to learn how to ride a motorcycle and pass the state test. I learned much more than that and now feel much more comfortable and knowledgeable about motorcycles.	It made me hesitant to sign up because I didn't know if I would get the scholarship and I did not like the idea of paying \$100 to get \$225 returned. I also worried for 3 weeks after the class, wondering if the refund would come. It did and I was relieved!	I am grateful for both the motorcycle class and the scholarship program!

5/15/2019	I became confident on my motorcycle and I don't second guess my ability.	As a single mom I don't often have extra funds to indulge. But I volunteer with AZ PGR and I now feel confident in my ability to ride with them.	Yes	No	This is a great program and I suggest it to anyone who I know is just starting out.
5/14/2019	I've been riding bikes since I was 12 years old I believe and I'm 67 now and I learned more in that morning and I've learned it all my time of writing amazing training	I no longer have to duck walk around tight corners	Yes and they made it a lot of fun it wasn't boring at all all I need now is a great big certificate to take to my insurance company	Yes the scholarship was much appreciated	it should be a requirement on your driver's license that after every so many years you have to go back and take this course
5/13/2019	It allowed me to decide if riding motorcycles is something I can do. The training course taught me safe riders skills and the basics of riding a motorcycle.	AMSAF scholarship made me want to give back to beginner riders.	It provided more than I expected. Overall a recommended class to take especially at the location I took it at.	No it did not.	Recommended to all riders beginners or even the ones who have some experience.

5/11/2019	I was able to achieve a motorcycle endorsement.	By making the cost of the course less and letting me use other funds to purchase safety items.	Yes and more.	No	Advertising it more. I learned of it from the TV news.
5/11/2019	I learned the basics of handling a motorcycle as well as some of the principals of safe defensive riding. The course allowed me to make the connection between classroom learned practices and procedures and the actual experience of riding.	The scholarship helped mitigate the cost of the program and allowed me to make a donation to AMSAF. This helps to fund others interested in learning to ride and enroll in the course.	The training was very focused and specific to learning to handle a motorcycle and in this regard it was everything I needed at an entry level.	The residual cost for the program after the donation to AMSAF was covered by the scholarship which allowed me to participate in the course in a more timely way. Very straightforward process and easily understood.	I think the program and the staff both in AMSAF and the course instructors are the best and really helped in giving me the confidence I needed to start riding. Great experience.
5/11/2019	I learned the basic riding skills to begin my motorcycle riding adventures.	It helped me to afford the class I had been wanting to attend for a while.	Yes	Yes	I think a few of the motorcycles need to be updated, that was my only concern.
5/10/2019	Learning how to safely operate a motorcycle and how to anticipate common riding mistakes.	Incentive to take training	Yes.	No	This program has helped me be a better starting rider. I might have made many unintentional fatal mistakes if I didn't take the training

5/10/2019	As a new rider, I took away many benefits. Both of my instructors were top notch and had so much knowledge and experience to impart. 5/10/2019	I was able to get my permit (under 18 still), and now I can ride with my family on my own motorcycle.	The scholarship helped me because I was saving my chore money to cover the cost of the training class. When we saw the scholarship was available, I had enough to take the class. No.	This program is extremely beneficial to new riders of any age. I highly suggest it and promote it whenever possible.
5/10/2019	As someone who knew basically how to ride a motorcycle, but never having any formal training, the class was very good at helping me consider the mental preparations of what it means to ride, as well as my physical ability to ride a motorcycle	I knew it was worth paying for formal training but the cost is still an issue so the scholarship made it a no-brainer to sign up now.	Yes everything I needed for training and getting my license. 2/11/2019	Gained knowledge of basic riding techniques and confidence to help me learn how to ride. It was super informative and I find myself repeating some of the techniques learned in class while on the bike/road to help me in everyday situations.	Being able to take the course at essentially half price is a great deal! And again, to gain the knowledge and confidence that I wouldn't have had otherwise is invaluable.	Yes. I signed up through TEAM Az and they were amazing! I am actually thinking about taking the BRC2 course as well.	A little. The timing of the scholarships (either 1st or 3rd week) and then having to pay the difference of the course cost within a week could be a little challenging. AMSAF is really good about being transparent though, so you know this going in. I can see how someone would put it on hold though for a month or two until they had the full amount of money.	Keep doing it!
2/10/2019	I am now a rider and the session both written and riding gave me the confidence and knowledge i needed to feel safe.	As a woman and age 55 i had on ly been a passeneger one time the month before the class on a motorcyle. The class was comprehensive and was basic for me to understand.	Yes. 2/10/2019	Although I spent many years growing up riding dirt bikes, this class taught me valuable safety roadway fundamentals that may never have become part of my street bike riding routine.	I have always had a strong will two bride, however have never Pursuit it due to financial difficulties. For me without the scholarship I would not be a legal and safe Street Rider	Absolutely! I feel the staff went above and beyond their duties and actually CARiD whether or not we learn from their classes. A plus five stars all the way	Yes. Coming up with a lump sum,especially during the holidays as I took the class, was absolutely not an option for me.	Keep up the great work.

The scholarship reduced the price of the course and the school offered a time that was convenient for me to attend.	The school was exceptionally professional, competent and provided everything I expected it should.		Thank you for offering this program. Through your efforts and the sponsors, I was able to finally get my motorcycle license after years of being prevented by my military work schedule and absences from home.
4/30/2018	I have wanted to take the course and get a motorcycle again for many years. My son convinced me this was the thing to do. 4/24/2018	Yes I feel more confident in my slow turns. I am very glad to have taken this class. My husband said he had already noticed an improvement. I was able to share with him some of the things I learned	It helped me to be able to take the class alot sooner than I would have been able to	yes		I can't wait to take another class in the future

4/24/2018	I thoroughly enjoyed the class and the instructors! I was completely new to motorcycling and learned really, really valuable information during the class that I otherwise may not have ever learned just trying to teach myself or have friends teach me.	It actually allowed me to have money left over to buy some gear and a better helmet than I might have otherwise bought.	Absolutely! I learned a lot of valuable safety information both from the book and the instructors. The instructors were so non-intimidating that it made the whole experience really a great learning weekend for me.		I passed on the AMSAF website to a friend who wanted to take another class, she was really happy to know it was available and if she takes the class because of the scholarship, it'll be another person on a bike with more safety knowledge, which is huge!! 4/23/2018	I gained so much confidence in such a short amount of time. It gave you the know how need to survive on a busy street whilst test riding a possible first Street motorcycle. The was very good in showing that you don't know everything.	The confidence to get out there and be able to say yeah I can ride that bike if you give me but a moment to adjust, because that's all I need to go from the 250cc training bikes to an 1100cc bike and take it on the highway.	When it came to safety yes it surpassed what I had expected. The only thing I didn't see was the opportunity to ride something that was closer to the like of other styles of bikes.		This program should most indefinitely keep doing exactly what's it's doing. Just keep building it up.
4/23/2018	By taking the Motorcycle Training Course, I feel capable of riding a motorcycle and doing so without injury to myself or others.	The AMSAF Scholarship personally benefitted me by making the safety course affordable.	Yes, the school provided everything I expected and more. 4/23/2018	I learned the right techniques for riding safely and picked up alot of necessary skills for low speed maneuvering. Confidence and technique are key .	I felt like a better rider from the first second after leaving the class . On the way home I noticed I had better comtrol over my bike . Felt natural like I was finally one with the bike .	Yes it did . The teacher was obviously serious about her job and passionate about safe and proper motercycle handling.		I believe the program is good for Arizona and for me as a returning rider after 13 years off a bike . I recommend any rider of any skill level to take a course. I intend to take one every year myself . I believe this program will lower accident numbers and make AZ the best state for riders . It is crazy what you can learn im a short amount of time and if you take it seriously and apply and practice what you learned every single time you ride you will be impressed .

1/19/2018	The class gave me a first time chance to ride a motorcycle and train on a motorcycle.	It gave me hands on time with the motorcycle.	No. The school said if you can ride a bicycle than you are set for success.. I read all the material and got a 100% on the written exam but "failed" the riding course. I had never driven a motorcycle and own an automatic vehicle. Therefore I did not know how to operate a clutch. It was very difficult to learn how to both ride a motorcycle and learn a clutch while performing under a tight class schedule. Although I got the hang of it, I was not profiecient in 2 days and did not pass the road test		None of the 3 females in the class passed the road portion. This is a very expensive class and I put a lot of time and effort into passing the written portion with a 100% score. I feel I wasn't given the time to just practice and ride and learn to operate the clutch. Unfortunately because I was a scholarship I was dismissed and there is no oppourtunity for further learning. So I am still without a M endorsement, although I was getting there... potentially the ability for students to remediate the road portion if they have received high scores on the written would be appreciated. It's really disappointing and too expensive to repay for the course simply for more practice time. Specifically, I had trouble with making u-turns in the box and with clutch /stalling. Riding the bike through the cones and obstacles was no problem. In the end I paid 100\$, used a

1/19/2018	I have never ridden a motorcycle. It taught me how to ride a motorcycle the proper way and what to look out for on the road	I personally benefited from it by using it to pay for the training. I'm a high school student and don't make much money. My father wanted me to take the course before I get a bike. But I couldn't afford the full price.	Yes. It was very thorough and informative.		I like the fact that I could use their bikes and they allowed me to learn at my pace. They were very patient
1/19/2018	Better knowledge of riding more from a safety standpoint. The riding portion is very valuable to gain skills.	To obtain my motorcycle endorsement at a lower cost. Well worth the money and time spent.	Yes		I wish that "everyone" take this course even if you never plan to ride a motorcycle. 7/13/2017	It gave me more skills on my motorcycle, made me feel like a more confident and competent driver. I knew I would be safer on the road.	It allowed me to financially be able to afford the class. Without the scholarship, I would not have been able to afford the fee.	yes and more.		This program went above and beyond my expectations. It was incredibly well organized, professional and truly an exceptional program. One that I take with me every time I get on my bike. I am so grateful for the experience. I has not only changed my experience as a rider, I am certain it has saved my life on many occasions.
7/13/2017	I received excellent feedback from the RiderCoaches to improve my riding proficiency on a bigger bike.	I like taking a formal training course once a year. Unfortunately, I lost my job late last year and the scholarship helped me financially to cover my self-imposed annual training.	Yes, Team AZ has an excellent program.		I really appreciate the opportunity for formal motorcycle training more affordable.

I was very thankful for the scholarship and probably wouldn't have tried something new due to the cost.	The instructor was extremely patient, calm, and very understanding...I wasn't happy with the instructor from buddy's who used to be an ex highway payrol...his mannerisms and communication unacceptable and I will never walk back into that dealership ever again. 7/13/2017	I did not know how to ride a motorcycle at all and I learned so much more than just how to ride.	I couldn't afford the class and the scholarship helped me because I learned so much safety info.			I think it's fantastic

I wouldn't have taken the course without it based on the cost so the scholarship helped make a lifelong dream come true for me.	Absolutely yes and then some. 7/12/2017	It had been decades since I had driven a motorcycle. When I purchased my bike, I was so intimidated I didn't ride it. The course gave me the skills and confidence that I needed to begin riding again.	It would have been a financial hardship to take the class without the scholarship especially since I had to travel to take it. The scholarship made taking the course possible.	It was more than I expected. I was extremely pleased with the school and what it provided. The instructor was fantastic. One of my fears was riding in the rain and what happened? It POURED and we trained right on through it for hours. So much for that phobia! :)		I believe this program is greatly needed. I hope these scholarships continue to be given as they provide opportunities for those of us who want to ride to learn the skills we need to be effective, safe, proficient riders. THANK YOU!!!!
7/12/2017	I've felt more informed about motorcycle safety.	It helped me determine if I was ready for the risk of owning a motorcycle.	Yes		I always encourage my friends and family to take the course and explain how it benefited myself.
7/12/2017	I was a very amateur rider that was away from riding for 20 years. The course gave me the confidence I needed to buy a bike and start riding again.	I took the course with my wife so she could learn to ride too. Without the scholarship it would have taken several months to save up enough for us both to do the course. Instead, we did it together for less than I had planned just for me.	The class did a great job of (re)introducing all the things I needed to be comfortable riding. I've even taken one of the follow up classes (cornering) with the same instructor.

5/6/2017	It absolutely gave me the knowledge and confidence to ride. It also streamlined my path to obtaining my motorcycle endorsement in a comfortable setting with great instructors.	It saved me two hundred dollars, making it much more affordable to attend the safety course. I used that extra money I saved and put it toward safety gear.	Yes. I honestly did not think a two day course was going to be sufficient enough to give me the confidence to ride. However the course combined an appropriate amount of classroom instruction with practical application. The instructors were extremely knowledgeable, patient, and genuine in their mission to produce safe riders.		I have spoke with many friends and co-workers since receiving this scholarship. My enthusiasm and high regards for the program has sparked interest in many of them. Especially those who have never ridden, like myself at one time. The scholarship program makes it more likely for a person to attend a safety course. This is a win for the AMSAF, the student and Arizona motorists. I would like to see this program stay in place on a continuous basis and hope organizations such the AZ GOHS finds value in educated safe riders on Arizona roadways as a means of reducing traffic collisions.

5/3/2017	The inclusive information provided help to make me feel more confident and knowledgeable not only about riding, but the actual motorcycle itself.	Without the scholarship, I would not have taken a class which more than likely would have stopped me from pursuing my motorcycle license (versus others who may simply go for a license uneducated).	Most definitely! I did not expect to enjoy operating a motorcycle as much as I did. While I have yet to purchase my own motorcycle (still enjoy riding as a passenger), I'm not adverse to owning one now.		I don't know why more people are not aware of the scholarship program. I only learned about it through word of mouth. Not sure if information can be posted at DMV office or motorcycle shops/dealers, but it might help encourage others like myself to take that step if they know the monetary assistance and top-notch motorcycle training is available.

4/24/2017	I was terrified of motorcycles my entire life, in fact totally against being around them and around "the people" the rode them. Now I respect the machine, the riders and I am an addicted and confident rider.	I would have never gone had we not went in a large group of friends and family - our large group could have never afforded to go without the scholarship. Without this program I would have continued cheating myself out of a whole new perspective of the beauty of the layout of our land. 3/13/2017	The Beginner Rider Course was absolutely amazing!! I learned so much from the many talented and seasoned rider coaches. The class prepared me and allowed me to be 95% more comfortable with riding and being on 2 wheels.	Learning how to ride has been a longtime goal of mine however, time, money and opportunity did not always coincide at the same time. Having the discounted fee of the scholarship program allowed me to make the time and opportunity easier.	Absolutely 100%!! The talented rider coached that taught my particular class, are extremely patient, kind and fantastic at what they do for this program. I did not know exactly what to expect, but the far exceeded any thoughts that I had on how amazing this course/program is.		You should be extremely proud of the work that your foundation does and the many people that benefit from your generosity, thoughtfulness and ability to spread the love of riding on 2 wheels. Integrity and compassion are rare traits these days and your foundation seems to have them both. I am extremely grateful for your scholarship program and my very best friend that loves me and thought of me when she heard of the open scholarship availability. Thank you for making my longtime goal a reality..
3/13/2017	I did not have the funds for the course and this scholarship allowed me to pay for the class. The class was invaluable.	It allowed me to take the class. I feel safer having taken the course.	Absolutely. I feel safer and have a better understanding of safe riding.		It was easy to use and I would not change a thing. Thank you.
3/12/2017	I learned how to ride the ride way and the safest way	It help me to be able to afford the class and obtain my license and to know the laws of riding	More then I expected		The instructors were very personable and very knowledgeable of the things they were teaching us and very hands on and that is so helpful for a person like me. Money very well spent

3/12/2017	The course helped so much with the basic skills needed to operate a motorcycle safely. The techniques learned to handle different situations we'll all encounter was priceless. The basic rider course should be a requirement to receive the endorsement.	I had just purchased my first bike and all the protective gear to go along with it. As you are aware quality gear is pretty pricey. The scholarship helped to offset some of the cost.	Yes the instructors were great! The ratio of class time to on bike time was perfect. The class designed really well to build a little with each new skill learned. The pace of the class was just right.		I think the basic rider course would 100% benefit any new rider as well as anyone who hasn't ridden in a while. I would definitely take a more advanced class to further my skills
3/12/2017	I learnt to use both front and rear breaks at the same time. Also to push down on the handlebar in the direction of turning, it saved me in a turn on the freeway.	I have 2 kids and I pay child support, without the scholarship I couldn't have taken this course and would have had to take extra time off work to spend a day at mid.	Yes		I plan on putting my son's through the course.
3/12/2017	I learned every necessary skill to be able to apply to riding on my own w838th my own bike	I am a single mom who wanted to learn to ride. #1 because it was on my bucket list and #2 because someone in my past had always said I couldn't do it	Yes and more. They were very patient and explained everything very well and answered any questions I had		I would Definitely do it again as a refresher
3/12/2017	I didn't really know how to ride until that class. They were really professional and very knowledgeable.	It saved me a few hundred dollars.	Yes it did and more.		It helps new riders get started and more.
3/12/2017	Learned proper management of riding a bike in all conditions and laws	Helped myself complete the course affordably	YES Ride classes were great		Continue this to allow for more educated riders

3/12/2017	I got a better visual of how important motorcycle safety is I see that without knowing the proper skills of riding you will end up in a bad accident.	Without the help from AMSAF scholarship I wouldn't have had the money to take the safe riding course class.	Yes they over achieved in there class I know a lot more then I would ever have if I didn't take that class.		I would just like to say thanks and keep doing what you guys do the AMSAF scholarships and the desert wind safety class are both amazing.
3/12/2017	It helped me gain basic motorcycle skills and built my riding confidence. I appreciated learning things I would not have intuitively learned like accelerating through a turn or counter steering.	It saved me a good deal of money, incentivizing me to take the course and possibly take a second course.	They did, I only had to bring appropriate clothing and gloves.		I am very appreciative of this program and think every rider should take the MSF and the AMSAF scholarship makes it financially possible.
3/12/2017	Taught me the basic fundamentals of a motorcycle and lots of great information on how to safely ride a motorcycle great tips and tricks	The scholarship personally benefited me because I've always wanted to ride a motorcycle but honestly cannot afford to pay the whole \$300_400 to go to the course but I still wanted to make sure I had proper training it is a great source	The school definitely provided everything that expected it was easy and fun however I wish it was definitely a little bit more of one on one		Greg marback instructor he was very thorough, funny, understanding and of course provided us with all the great information that we needed to be successful in riding a motorcycle
3/12/2017	I learnt the basics of motorcycle driving, safety procedures and group riding techniques	Leant to handle motorcycles efficiently, developed confidence in riding and became eligible for license	Yes, it fulfilled my expectations and more		Great program and highly recommended. Would also be nice to include - pillion riding techniques, heavier motor bikes

3/12/2017	Yes multiple benefits ranging from insurance discounts to knowing more helpful tips to safely navigate the streets.		Yes and more was witness to a lady lay her bike down upwards of five times.... I thought we were taking the experienced Riders course. But instructors were amazing and safe..... She didn't pass the endorsement test.		The program was amazing and in my opinion a base version should be taught to the general public taking there class D license. It would greatly increase the safety of everyone in our great state.

3/12/2017	It was a great refresher course for me. I got my motorcycle endorsement in 2008 and never rode since then. This was my opportunity to relearn the skills after 8 years. AMSAF coach Greg (do not know his last name) was good.	I have been jobless for 9 months and its on my list to buy a motorcycle as soon as possible. It helped me to be prepared for it ahead of time. Personally it helped me to snap out of my jobless drudgery and kicked some life into me. thank u so much!!	Yes although the timing is short. 2 days is not enough to learn all the skills effectively.		The class should be offered over a period of 4-5 days in short spans. Will help students learn, practice and retain. A fire hose learning style washes off after a month. So spreading it across a week with shorter time spans will be a different experience. Also it would be great if you can offer follow up program to coach people on a rented/ personal motorcycle. It will help students gain an extra level of confidence before they can venture out on the road. I might have to repeat/take a class again before I buy a bike and get on the road anyways. This would be a great opportunity for AMSAF to enhance the learning experience and expand their value proposition too. (You can write me a check for this marketing idea.Thank you very much)

Program is great for people who really want to get into motorcycles but the first step of professional instruction is not within their budget. 3/12/2017	The course was taught very well n informatively and I learned so many defensive maneuvers in real life situations.	I received a discount on my motorcycle insurance	Between the classroom and the hands on driving the bike it was so much fun n it taught me to be a very defensive motorcycle driver. I would recommend the course to anyone that needs to get a motorcycle license or a refresher course on basic laws and life saving techniques.		I'm so happy I took the course our instructor Steve was amazing n he knew so much about the motorcycle curriculum and everything else that was taught on the Riding course and made it fun and informative for our whole class !!!

3/12/2017	I learned critical, life-saving skills and good technique to keep myself safe while riding. I will be recommending AMSAF and Team Arizona to all of my friends.	It saved me money which I used to invest in safety gear -- very important, as I learned from the course.	At first, I felt that I wasn't getting enough practical learning experience, but I've since realized that I was taught important skills which I've thankfully been able to apply as I continued to learn on my own time. In other words, yes.		I would absolutely implore anyone interested in learning to ride safely and responsibly to apply for an AMSAF Scholarship. It was a very fulfilling experience and I'm grateful for it.
3/12/2017	It benefited me by giving me a great starting point of knowledge to start riding.	It allowed me to take a great course during a very restricted funds time in my life.	The school provided everything and more than I could have ever hoped.		This is a great program for new riders and anyone looking into getting a bike in the near future.
3/12/2017	This course has already saved my life on a few occasions while riding.	It made it really affordable to take the course that has helped me be a safe rider.	Yes.		Awesome program, I am very that this program exists.
3/12/2017	Taking the course allowed me to get hands on experience on a motorcycle before trying to teach myself how to ride.	Without the scholarship, I might have skipped out on taking an MSF course.	Yes, the overall experience was good.		I love what you guys are doing, this scholarship makes taking a class a lot more affordable. Many people will be able to benefit from an approved course that wouldn't otherwise be able to due to financial restraints.
3/12/2017	Discount on Motorcycle insurance! Sharpened my riding skills a plus at 57 yrs.	At my age (57), riding in Phoenix traffic!	O yah!		Think every Motorcycle rider should experience the after effects of successful completion of Class and course.

11/18/2016	now I can go to work on motorcycle	save money on gas	yes		thank you its the best program
11/18/2016	I always felt that a \$300 class to learn to ride was a bit steep. Then I went to Team AZ's website and saw that AMSAF had a scholarship. If it wasn't for the scholarship I may not have gone to the MSC.	I was able to go to the class and wasn't worried about the class being overpriced.	The class was amazing! Oddly enough I was the only one in the class that didn't know how to ride. Everyone was really nice and helpful. Everyone including the teachers were encouraging and gave tips.		The class was awesome and very fun. I now know how to ride motorcycles and learned a ton more than I expected.
11/18/2016	Learned valuable safety and mechanical skills for riding my motorcycle. I have been riding for many years and learned things that I never knew before.	Gave me more confidence that I was being as safe as possible and helped empower me to be a more proactive rider.	It certainly did. I did not really know what to expect and it was a classroom setting (like the website explained) but there was plenty of time for one on one coaching.		What a valuable experience and one that I truly gained a lifetime of knowledge from. I have future plans to come back and take another course. Thank you so much for allowing me to take this course through the scholarship program. Without your assistance, I would not have been able to do so.

11/17/2016	I think I have a better understanding of hazards in traffic, and better understanding of how to be aware of potential problems that develop. To always have a plan "B".	Cost of course. I traveled 450 miles round trip, plus had to stay at a motel, and eat in order to take the class. nothing was available in the Page, Az. area.	I would like to think more. I believe it flat out has made me a better driver. More aware of all surroundings, and to look for things developing in front of me better to avoid hazards.		It was great! The instructor was very good, and answered all questions from the class, I made some new friends in the process.
11/17/2016	I was able to achieve a clear vision of what a successful rider needs to be aware of and how to avoid and/or overcome dangerous situations. I was able to afford the course without struggling to pay other bills on time. The scholarship made the course much more affordable.	Yes, the school was very helpful & the instructors were extremely knowledgeable.		I've already told a couple people who are considering taking a course to apply for the scholarship. That way financial constraints are not a deterrent.
11/16/2016	This training was very helpful to learn about the basics of riding and what the important things are to take care while driving in city and outsidess. Overall helped me get to know more about riding.	Personally, I was very happy to have received this. I could not afford for 300\$ plus expenses for riding classes and this helped me out financially. I would like to thank for them for their prompt reply and calls to answer my queries.	Yes, it did. It was very nice to meet all these people and have this riding training together with them.		Awesome!! Definitely take it if you are new to riding or experienced rider moving to USA from some other part of World.

11/16/2016	Was able re-learn how to ride safely after 30+ years off a bike.	I could afford (with the scholarship) to go to school with my son and later take a road trip with him, helping him decompress from extended overseas deployment.	Yes. Though the instructor could have been more dynamic.		None. Thank you.

11/16/2016	I was able to learn about motorcycles and how they operate, going in thinking they are like regular bikes and they are not because they have multiple gadgets, hey have a lot involved than just pedals. It taught the rules of the road and to be safe.	IT saved me in my fiancés and it allowed me to become more confident and free spirited.	It did, everything and more then I thought I needed it.		It was really easy in class and the both instructors are compassionate in the process of our success.
11/16/2016	Was able to get a great understanding of how to ride a motorcycle and the safety concerns. 11/16/2016	I feel like I'm a safer rider now. Didn't have any experience going into the training, I learned a lot about everything.	I feel safer and more confident	Yes		I feel it should be a requirement
11/15/2016	It is incredibly helpful to go through the course on the same bike I ride on the street and benefit from expert coach/instruction. The more advanced techniques not in the basic course improve my odds of avoiding accidents and injuries.	Without the scholarship it is unlikely I would have continued my training. My safety as well as the safety of others I come across on the road is more likely to be assured after this training.	Yes. Team Arizona is a model of professionalism and effective teaching.		Only that the riders that don't take advantage of follow up training are unlikely to know what they are missing. Scholarships get more people in these courses who will then tell other riders how valuable it can be.
11/15/2016	The course gave me the confidence to ride a motor cycle.	The scholarship allowed me to afford the course.	Yes the school provided everything I expected.		I was very impressed and satisfied with the course. I gained enough confidence from the course to purchase my first motor cycle. I will be taking advance courses as soon as I can.
11/15/2016	I was able to reacclimate to riding.	I could not fit regular priced training into my budget but the scholarship allowed me to take the class.	Yes absolutely!		It was great but very physically taxing due to the size of the class... too many people which made it harder to facilitate the class.

11/15/2016	Inland Valley taught me how to ride a motorcycle the correct way. I learned how to control my motorcycle better especially in turns and slow speeds. My instructor was very patient and made sure everyone in the class understood what to do.	The scholarship allowed me to take the class at a very discounted price. I could not of afforded it without their help.	Yes the school did provide all expected and then some. Instructors made sure everyone understood what he was teaching us to do and helped us accomplish what we needed to get our endorsement.		I have given the scholarship info to about 7 people and told them they need to take this course. I learned so much from it and enjoyed going. I am hoping to attend the second class to learn more and gain more confidence in myself while ridding my motorcycle in traffic.

11/15/2016	At 74 I have never ridden a motorcycle before so the only way I would ever ride is to go through a safety course (as you get older you really do get a little smarter). I knew that it would be geared for people with no experience, so it was perfect.	Being retired an on a fixed income the scholarship made the class possible. I was surprised that more people didn't take advantage of it. Getting into a new sport can be expensive (helmet, gloves, boots etc), so having the scholarship really helped.	The school couldn't have been better. I had a very patient and qualified coach, who took the time to make sure everyone GOT IT. before moving on to the next phase of the training. The safety portion was presented in a way that made it easy to understand, and the ramifications if you did it wrong. It has even made me more aware of whats around me when driving my car..		I think that the state should put more money into this program and make it required before getting your licence (at least the safety portion). You can always learn the fundamentals of riding, but safety aspects are often forgotten Thanks again for the opportunity to learn to ride SAFELY

11/15/2016	The biggest win was learning and applying what I did through the course! I felt much more comfortable and confident riding after this course. The AMSAF scholarship is what made this possible, though, which I am very grateful for.	Without the scholarship, I would not have been able to take this training and be more confident and comfortable on the road for the safety of myself and other motorists. I didn't have all the money to take the course and really wanted to so it helped me a lot.	Yes it did and more.		The program is wonderful. While sometimes I felt they were a little hard on me I realized at the end that it only made me better. My husband and I both took it and benefited.

The money I saved from having been awarded the scholarship was used toward safety gear.	Yes.		It is a rewarding experience albeit it does require a tremendous amount of mental and physical stamina.
11/15/2016	I was able to get my motorcycle license.	The course really helped me get comfortable with being on a motorcycle and also taught me the fundamentals of riding one.	It did and more so. I really enjoyed the course and it was very beneficial to me taking the next steps in getting a license and owning a motorcycle. Absolutly		I had no issued with it but two of my friends kinda stumbled thru it. I had to walk them thru. 1. Hear about the scholarship, then try to determine which class/school then apply then wait for the scholarship number so when you registered it didn't charge you.

11/15/2016	Getting back to basics. Always a good thing after having done something for a very long time.	The price is great. Meeting new likeminded people was good. Being able to help absolute beginners was satisfying. The experience must be better than that at the DMV!	Yes, and more; supplying bikes was a pleasant surprise. Thx!		Our instructor is knowledgeable to get the message over clearly and accurately yet informal enough to reduce stress amongst beginners.
11/15/2016	I was able to learn to ride in a comfortable environment with other beginners and was not intimidated because we were all at the same level.	I was able to finally accomplish a goal of mine that I was not able to accomplish before due to the cost of the class being so high.	Yes, however I was a bit disappointed when our first day out on the course ended early due to us finishing the exercises so quickly. I expected class to end at 3 p.m. and we ended somewhere around 1:15 pm. I would have liked that extra time to practice some of the skills we had learned earlier in the day. I would have felt more confident for the second day of training.		I think it is a great program and I am glad I went through the course.
11/15/2016	I was taught the basics for safe riding.	It allowed me to be able to afford the training class.	Yes		I think it was great!!!!!!!!!!!!
11/15/2016	I received the training needed to safely operate a motorcycle safely with confidence and received my M endorsement on my license.	My husband and I were able to take the course together, which was not only good for us personally, but it saved us money so we're could get gear sooner than later.	Yes		I have recommended it to many people, anyone that has said they want to get their endorsement.

10/12/2016	It helped me to learn new skills and improve on what I knew. It also taught my sons to be safe when they decide to ride.	I payed for my three sons and daughter in law. 10/10/2016	The motorcycle training course gave me confidence and also let me practice the skills necessary to remain safe on a motorcycle, in all traffic situations and weather situations. I will be ready to take the next level of classes soon.	It would have been harder for me to find the cash to pay for the course. The reduction to \$100 made it doable. It also gives me the feeling that the State of Arizona wants motorcycle riders to be educated and safe on the highways.	The instructors were very knowledgeable and patient. Especially patient. Also the students were respectful of the ability levels of the other students. It was a perfect storm - instructors and students- high caliber of each.		I have always encouraged motorcycle riders to have formal education. It helps prevent (and sometimes cures) bad habits. I had my youngest son in 2007 take this course, and my grandson in 2015 take this course BEFORE they bought their own motorcycles. The fact you can go into the MVD and not have to take the written or road test is a real plus. :-) I accidentally found out about the scholarship on the Internet and I tell everyone about it, especially friends with kids that want to ride. It gives the kids 'confidence' and the parents 'peace of mind'. Also, it would be good to tell the students who don't already have an AZ driver's license, that they must take a 'rules of the road' type written test at the MVD. They really have to get the book and study, or they will fail the test. We had a couple of college students in our class and they didn't know

Yes		The value of this class cannot be underestimated. I will now be a safer driver and this will help make me and others safer on the road.
10/8/2016	I got my license without doing it with the MVD and even though I've ridden for 15 years I still learned something new and learned to make my bike do things I didn't know it could.
