5/31/2018	I feel safe and empowered to enjoy the freedom of motorcycle riding. I want to join in rides with my two sons as we enjoy this fun sport.	The scholarship reduced the price of the course and the school offered a time that was convenient for me to attend.	The school was exceptionally professional, competent and provided everything I expected it should.	Thank you for offering this program. It was my dream to safely ride a motorcycle and gain my drivers license endorsement. Through your efforts and the sponsors, I was able to finally get my motorcycle license after years of being prevented by my military work schedule and absences from home.
4/30/2018	I have wanted to take the course and get a motorcycle again for many years. My son convinced me this was the thing to do. I just turned 60 and now have my motorcycle license and ride every week, safely. I can't thank you enough.	I have confidence in myself and my abilities to ride safely. I now know the dangers that are most likely to take a motorcycle and rider out in an accident.	No. It provided more. I would have done it sooner if I had known how well it would work out for me.	I am convincing my wife to go next. I would love to get her a bike so we could ride together with her on her own bike.
4/26/2018	I was able to take the BRC through an amazing company to figure out if riding a motorcycle on a regular basis was something that I was interested in....it was!	While I work full time, I'm also a student, so funds are always tight! With this scholarship, I could afford to take the BRC and learn from professional riders.	Yes, and more! They were wonderful and so very knowledgeable.	I think this program is amazing. I found out about it from my husband and we are both very grateful that it is available.
4/25/2018	Man, help me handle the motorcycle way better! Better awareness for safety!	Put me on a bike faster, make me a safer Rider,	Yes	I would recommend it

4/24/2018	Yes I feel more confident in my slow turns. I am very glad to have taken this class. My husband said he had already noticed an improvement. I was able to share with him some of the things I learned	It helped me to be able to take the class alot sooner than I would have been able to	yes	I can't wait to take another class in the future
4/24/2018	I was able to work on my turns in a controlled and safe environment and receive constructive advice to improve.	I would not have been able to take the course otherwise.	Yes	I think it's a great program! 2 months ago I did not even know how to start a motorcycle. Now I'm riding!
4/24/2018	I thoroughly enjoyed the class and the instructors! I was completely new to motorcycling and learned really, really valuable information during the class that I otherwise may not have ever learned just trying to teach myself or have friends teach me.	It actually allowed me to have money left over to buy some gear and a better helmet than I might have otherwise bought.	Absolutely! I learned a lot of valuable safety information both from the book and the instructors. The instructors were so non-intimidating that it made the whole experience really a great learning weekend for me.	I passed on the AMSAF website to a friend who wanted to take another class, she was really happy to know it was available and if she takes the class because of the scholarship, it'll be another person on a bike with more safety knowledge, which is huge!! Thank you!!
4/24/2018	I learned how to ride a motorcycle with confidence and get my license.	I was finally able to afford the motorcycle course, which I have been wanting to do for years	Everything and more. The instructors where very help, understanding, knowledgable & made it fun.	I really appreciate the AMSAF Scholarship..it made it possible for me to accomplish getting my motorcycle license. Now I ride everyday
4/24/2018	I got comfortable enough on my own bike to get on public streets.	I was so scared of my bike that I had a hard time doing more than 15 MPH, btu now I can do traffic	yes it did	I was stressing on the new bike and was not sure I was ever going to come up with the \$ to pay for the class and now I am a riding machine!

4/24/2018	five stars	five stars	five stars	Thank you
4/23/2018	How i benefited from it was by learning 5he proper techniques foe safely riding on a street verus just going to dmv and taking the road course	The schloraship benifitted me in that it helped me pay for tye course and also taught me things i disnt know about safe riding	Team az provided not only the bike and helmet but also by having instructors help teach you what u did wrong as well as what u did right	This program is the best program antone could take in order to learn how to be a safer rider on the road
4/23/2018	I gained so much confidence in such a short amount of time. It gave you the know how need to survive on a busy street whilst test riding a possible first Street motorcycle. The was very good in showing that you don't know everything.	The confidence to get out there and be able to say yeah I can ride that bike if you give me but a moment to adjust, because that's all I need to go from the 250cc training bikes to an 1100cc bike and take it on the highway.	When it came to safety yes it surpassed what I had expected. The only thing I didn't see was the opportunity to ride something that was closer to the like of other styles of bikes.	This program should most indefinitely keep doing exactly what's it's doing. Just keep building it up.
4/23/2018	By taking the Motorcycle Training Course, I feel capable of riding a motorcycle and doing so without injury to myself or others.	The AMSAF Scholarship personally benefitted me by making the safety course affordable.	Yes, the school provided everything I expected and more. The instructor spent extra time with me after the class when I was doing poorly to ensure I would improve. I felt confident by the end that I would be a safe rider.	This program is invaluable. It makes motorcycle safety and knowledge affordable to nearly anyone seeking to ride. Thank you for this program.

4/23/2018	I learned the right techniques for riding safely and picked up alot of necessary skills for low speed maneuvering. Confidence and technique are key .	I felt like a better rider from the first second after leaving the class . On the way home I noticed I had better control over my bike . Felt natural like I was finally one with the bike .	Yes it did . The teacher was obviously serious about her job and passionate about safe and proper motorcycle handling.	I believe the program is good for Arizona and for me as a returning rider after 13 years off a bike . I recommend any rider of any skill level to take a course. I intend to take one every year myself . I believe this program will lower accident numbers and make AZ the best state for riders . It is crazy what you can learn in a short amount of time and if you take it seriously and apply and practice what you learned every single time you ride you will be impressed .
4/23/2018	Really like the class I meant offened from the class from learning how to how to ride a different way than what I've been used to it from riding in the dirt and moving transitioning from the street it was a really good class for me	At the time I was was not working and doing the hundred dollars donation in being being granted a scholarship really help me financially yes I think the class provided everything that I expected and more I really enjoyed it and I would recommend to a	Yes it was everything I expected and more and I recommend any new riders that are thinking of starting to ride in the streets to really consider taking the course I loved it	I was very surprised at how good the teachers were there there was four students in my class that it never ride ridden a motorcycle before at all and on the first day they had him riding and two of the two of the students even passed the class the first first go-round
4/23/2018	I have not taken the course yet. It will not benefit me since I needed to get my son registered too and it kept freezing up, not allowing me to buy one as was discussed in our CVMA group.	See above	See above	The ability for my son and I to take the course together so that we can ride together in the future as discussed in our CVMA meeting.

4/23/2018	It was easy to follow from beginning to end and allowed me to slowly ease my nervousness during the course.	I had always wanted to get my own endorsement but when I tried to learn on my own several years ago, it didn't go well. The course allowed me to get past my anxiety and obtain my endorsement.	Yes.	Definitely worth it! I'd recommend it to anyone wanting to ride.
4/23/2018	It gave me the confidence of how to maneuver properly on a motorcycle being a brand new rider.	Allowed me to save a substantial amount of money in order to be able to take the course.	Yes absolutely.	It exceeded my expectations. Both rider coaches were amazing and very patient.
4/23/2018	I didn't know how to ride before taking the course. Now, I am confident on the road.	I had purchased my scooter before I signed up for the class. Between the scooter, the helmet, the armor, and everything else, it helped to take the rider course at a discount.	That and more.	Only that "scholarship" seems to be the wrong word.

4/23/2018	I was able to take a class that I had wanted to take for a while, but couldn't due to financial restraints. Being awarded the scholarship helped me out tremendously.	I was able to pay for the class at a discounted rate.	Yes, from the classroom to the course instruction the class provided everything that was needed to be successful as a rider.	I thought that the classroom instructor was great and gave us important information for the class to be successful. Also, the ride course instructor Sarah gave me the most helpful information to complete the course.
4/23/2018	I went in not having any knowledge of how to ride a bike and was successfully riding one before the end of the two-day class. I was able to go from non Rider to saferider in a matter of 2 days. The instructors were incredible.	I work in the Powersports industry and I'm now able to understand the passion behind riding. And look forward to including it in my own life.	Absolutely. And more.	It's absolutely wonderful. I love that there is an organization out there that encourages safe riding practices and awareness among those driving closed in vehicles. I'm sure that the roads are much safer place because of this opportunity.
4/23/2018	I was able to learn the basics of operating a motorcycle safely on the road.	I wouldn't have been able to afford the class right away so it allowed me to get the class done sooner rather than later.	Yes	This is definitely beneficial. Allowing riders to take thistle class at a reduced rate allows more to learn the rules of safe operating.
4/23/2018	Learned I've been doing things for years	Allowed both my wife and I to participate together	Yes and more	Keep up the great work. Donation coming soon
4/23/2018	I gained the knowledge and experience that I needed to begin writing again. I was lacking confidence after not writing for several years and it helped to bring that confidence back.	, it provided me with the confidence I was lacking as well as helping to take the class again without the large out-of-pocket cost which was why I hadn't taken it and several years.	, yes the school provided everything that I expected and then some.	, I believe in this program and I believe it helps many people that want to ride learn how to ride and gain the confidence and knowledge they need to ride a motorcycle. I have recommended this program to several friends since taking my course again. Highly recommend it.

4/23/2018	Refreshed the do's and don'ts of riding on the road. I really liked the actual motorcycle riding part in an enclosed area!	Familiarized myself with a street bike again. Started at the very beginning and finished with riding over obstacles that could be found on the road. Yea we did the riding test too!	Yes, motorcycle was serviced and ready to ride, all materials were given to us, I really liked how we broke into groups and drew out the scenarios.	Be able to ride at a little higher speeds but I know space is valuable. Really had fun, learned a lot. I would recommend this class to everyone who rides on the street.
4/23/2018	The course included hands-on experience, safety and confidence skills	I am now ready to get on my bike and ride with confidence! I could not have had a better class experience and have recommended the class and the scholarship to several people!	It was everything I expected and more	Thank you for offering this scholarship! Without it I would not have been able to take the course and I think the coaches were amazing!
4/23/2018	I felt much more confident and informed prior to my first ride on the street.	It allowed me to quickly regain my riding skills from my youth in an informed manner allowing me to ride in the Mayor's Big Dog Run CHarity event!	Yes, the school was amazing.	I appreciate that it does not pay for the whole class and that the recipient has some "skin in the game"!
4/23/2018	Gained a lot of information.	Learned helpful tips for a brand new rider.	Yes	This is amazing and helps take away some fear

3/7/2018	On top of the technical skills and valuable road advice, the MTC course gave me the confidence on a motorcycle.	Without the scholarship I don't think I would have attended the course for financial reasons– I simply couldn't afford it out of pocket. That said, I am extremely grateful for the opportunity and the value of the course. I'm very thankful.	Absolutely and more.	This is a fantastic program that I will absolutely recommend to anyone interested in riding a motorcycle.
2/6/2018	I benefited greatly. It taught me valuable lessons and gave me the confidence to take riding to the next level and actually get on the bike.	It allowed me to save some money while also learning a great deal.	Everything and more. TEAM was very knowledgeable and spent a great deal of time teaching every student and paying attention to everyone's individual needs.	This is a great program and I would recommend it to anyone wanting to ride a bike.
1/26/2018	I did not know how to ride a motorcycle and it was a safe learning environment to learn.	It saved me money as well as allowing me to choose respective courses.	Yes, it was fun and eye opening to the importance of safe riding.	
1/24/2018	I was able to take class and learn so much and pass both the written and course tests without the worry of coming up with the \$300 plus dollars in order to get my motorcycle endorsement. Thank you.	Help with the cost of the course. Thank you.	Yes. Plus answered my questions that I had.	Thank you, thank you!
1/22/2018	Received my license.	I couldn't afford \$300.	Yes!	More schools in the SE valley that offer the course on bikes other than Harley.

1/20/2018	I learned how to ride properly.	The cost of the course is a bit high with scholarships it allowed me to take the course	Yes. I have even begun to recommend it.	It should be continued helping with the cost more riders will take it, making the roads safer.
1/20/2018	The class provided me with my first riding experience which was wonderful .	The financial incentive really pushed me to take the class , which I am grateful for . Without the class becoming affordable , I may not have taken the class at the non discounted price.	They did .	The scholarship is great !
1/19/2018	I learn how some techniques that I don't think I would have learned if someone had showed me how to ride safety wise.	Gave me more confidence that I didn't think I needed.	Yes, I had a great instructor and even when I was nervous, he helped me through the course.	Great program, and would recommend to anyone who wants to learn how to ride, or even knows how to ride but wants to be a better rider.
1/19/2018	I learned the basics of riding in a controlled environment.	I finally got my endorsement.	Yes	The course was exceptional. The course covered a number of scenarios that made me think.
1/19/2018	It help me get my license and less insurance costs. The cores also helped me to remember things that I have not done for a long time .	I am on a fixed income so anything that would help to make things cheaper I like to take advantage of and that did benefit me .	Yes everything I expected was done. 1/19/2018	The emphasis on safety is the best benefit I received from AMSAF.	I'm a better rider, and a SAFER rider	Yes, the training was comprehensive.	Great program, and I'm referring interested folk to the <a href="http://amsaf.org">amsaf.org</a> website.
1/19/2018	The class gave me a first time chance to ride a motorcycle and train on a motorcycle.	It gave me hands on time with the motorcycle.	No. The school said if you can ride a bicycle than you are set for success.. I read all the material and got a 100% on the written exam but "failed" the riding course. I had never driven a motorcycle and own an automatic vehicle. Therefore I did not know how to operate a clutch. It was very difficult to learn how to both ride a motorcycle and learn a clutch while performing under a tight class schedule. Although I got the hang of it, I was not proficient in 2 days and did not pass the road test	None of the 3 females in the class passed the road portion. This is a very expensive class and I put a lot of time and effort into passing the written portion with a 100% score. I feel I wasn't given the time to just practice and ride and learn to operate the clutch. Unfortunately because I was a scholarship I was dismissed and there is no oppourtunity for further learning. So I am still without a M endorsement, although I was getting there... potentially the ability for students to remediate the road portion if they have received high scores on the written would be appreciated. It's really disappointing and too expensive to repay for the course simply for more practice time. Specifically, I had trouble with making u-turns in the box and with clutch /stalling. Riding the bike through the cones and obstacles was no problem. In the end I paid 100\$, used a scholarship and still can not operate a motorcycle legally. I'm very disappointed but appriciate the opportunity.

1/19/2018	Learn bike safety and got bike endorsements	Learned to ride	Yes in great detail	Great course!
1/19/2018	I learned a lot of new info. Also, the instructors were very helpful. I am glad I took the course! Thank you for your support.	It was a big help money wise to receive such help.	Yes they did! Desert Wind H.D. are very friendly and knowledgeable.	Nothing really...it was a very nice experience! Thank you again for helping!
1/19/2018	I have never ridden a motorcycle. It taught me how to ride a motorcycle the proper way and what to look out for on the road	I personally benefited from it by using it to pay for the training. I'm a high school student and dont make much money. My father wanted me to take the course before I get a bike. But I couldn't afford the full price.	Yes. It was very thorough and informative.	I like the fact that I could use their bikes and they allowed me to learn at my pace. They were very patient
1/19/2018	Better knowledge of riding more from a safety standpoint. The riding portion is vary valuable to gain skills.	To obtain my motorcycle endorsement at a lower cost. Well worth the money and time spent.	Yes	I wish that "everyone" take this course even if you never plan to ride a motorcycle. Motorcycle training should be mandatory in order to obtain a license of any sort. Keep up the good work.
1/19/2018	Working with experienced riders that were professional and helpful	Makes me much more aware of the traffic laws and safety controlling my motorcycle .	Yes. Here at Pima Community College, they did a good job. The area we practiced at needs some work. Painting and visual markers are worn out.	I am thankful for saving me the money.

7/13/2017	It gave me more skills on my motorcycle, made me feel like a more confident and competent driver. I knew I would be safer on the road.	It allowed me to financially be able to afford the class. Without the scholarship, I would not have been able to afford the fee.	yes and more.	This program went above and beyond my expectations. It was incredibly well organized, professional and truly an exceptional program. One that I take with me every time I get on my bike. I am so grateful for the experience. I has not only changed my experience as a rider, I am certain it has saved my life on many occasions.
7/13/2017	I received excellent feedback from the RiderCoaches to improve my riding proficiency on a bigger bike.	I like taking a formal training course once a year. Unfortunately, I lost my job late last year and the scholarship helped me financially to cover my self-imposed annual training.	Yes, Team AZ has an excellent program.	I really appreciate the opportunity for formal motorcycle training more affordable.
7/13/2017	It was an eye opener adventure of which I realized I understand the technical side of things but the bike I was on was too much for me.	I was very thankful for the scholarship and probably wouldn't have tried something new due to the cost.	The instructor was extremely patient, calm, and very understanding...I wasn't happy with the instructor from buddy's who used to be an ex highway payrol...his mannerisms and communication unacceptable and I will never walk back into that dealership ever again.	The only suggestion I have is if bikes are going to be offered st harley dealership for training...the applicant should have a choice. ..I should of had a really small bike...150c...etc

7/12/2017	Helped me get better adapted to the rules and safety to keep in mind while driving motorcycle.	Provided me financial help and helped me gain confidence while driving on motorcycle	Yes, absolutely. It was awesome and fun experience to learn and ride with so such a fun group.	It is an awesome program. I recommend it for all 1st time drivers and for others to brush up their skills, if it has been a while.
7/12/2017	The riding course allowed me to learn the basic safety's involved in riding a motorcycle. It empowered me to make the decision to purchase my own after having debated it for so long.	The scholarship made the course affordable, as a part time student, full time employee and homeowner- the course would have been out of reach given my other priorities.	The school provided the necessary equipment, guidance and support throughout the entirety of the course.	The instructors I worked with where great-supportive enough to help the riders gain some confidence through the course.
7/12/2017	I learned valuable life saving skills.	It gave me the chance to do things right even though I couldnt adore it.	Yes	Have more sponsorships :)

7/12/2017	It had been decades since I had driven a motorcycle. When I purchased my bike, I was so intimidated I didn't ride it. The course gave me the skills and confidence that I needed to begin riding again.	It would have been a financial hardship to take the class without the scholarship especially since I had to travel to take it. The scholarship made taking the course possible.	It was more than I expected. I was extremely pleased with the school and what it provided. The instructor was fantastic. One of my fears was riding in the rain and what happened? It POURED and we trained right on through it for hours. So much for that phobia! :)	I believe this program is greatly needed. I hope these scholarships continue to be given as they provide opportunities for those of us who want to ride to learn the skills we need to be effective, safe, proficient riders. THANK YOU!!!!
7/12/2017	I've felt more informed about motorcycle safety.	It helped me determine if I was ready for the risk of owning a motorcycle.	Yes	I always encourage my friends and family to take the course and explain how it benefited myself.
7/12/2017	I was a very amateur rider that was away from riding for 20 years. The course gave me the confidence I needed to buy a bike and start riding again.	I took the course with my wife so she could learn to ride too. Without the scholarship it would have taken several months to save up enough for us both to do the course. Instead, we did it together for less than I had planned just for me.	The class did a great job of (re)introducing all the things I needed to be comfortable riding. I've even taken one of the follow up classes (cornering) with the same instructor.
