

SURVEY OF AMSAF SCHOLARSHIP WINNERS FOR 2016-17 YEAR

6/20/2017

Entry Date	How did you benefit from taking the Motorcycle Training Course you received from AMSAF?	How did the AMSAF Scholarship personally benefit you?	Did the school provide everything that you expected?	Any final thoughts or impression on this program and what it has to offer.
5/6/17	It absolutely gave me the knowledge and confidence to ride. It also streamlined my path to obtaining my motorcycle endorsement in a comfortable setting with great instructors.	It saved me two hundred dollars, making it much more affordable to attend the safety course. I used that extra money I saved and put it toward safety gear.	Yes. I honestly did not think a two day course was going to be sufficient enough to give me the confidence to ride. However the course combined an appropriate amount of classroom instruction with practical application. The instructors were extremely knowledgeable, patient, and genuine in their mission to produce safe riders.	I have spoke with many friends and co-workers since receiving this scholarship. My enthusiasm and high regards for the program has sparked interest in many of them. Especially those who have never ridden, like myself at one time. The scholarship program makes it more likely for a person to attend a safety course. This is a win for the AMSAF, the student and Arizona motorists. I would like to see this program stay in place on a continuous basis and hope organizations such the AZ GOHS finds value in educated safe riders on Arizona roadways as a means of reducing traffic collisions.
5/3/17	The inclusive information provided help to make me feel more confident and knowledgeable not only about riding, but the actual motorcycle itself.	Without the scholarship, I would not have taken a class which more than likely would have stopped me from pursuing my motorcycle license (versus others who may simply go for a license uneducated).	Most definitely! I did not expect to enjoy operating a motorcycle as much as I did. While I have yet to purchase my own motorcycle (still enjoy riding as a passenger), I'm not adverse to owning one now.	I don't know why more people are not aware of the scholarship program. I only learned about it through word of mouth. Not sure if information can be posted at DMV office or motorcycle shops/dealers, but it might help encourage others like myself to take that step if they know the monetary assistance and top-notch motorcycle training is available.
4/29/17	Learned valuable skills I wouldn't have gained elsewhere, had one one one pointers, and we had a judgement free environment to work freely in.	Learned life saving skills, got to test for endorsement, and got to ask all kinds of questions.	Yes.	Great program and the scholarship made it affordable for me.
4/29/17	Was able to receive my M endorsement, Learn a lot about riding safely, and it built my confidence	Made it affordable	Yes they did	Provide a higher scholarship amount for intermediate and advance courses.
4/27/17	I learned valuable skills requires to safely and efficiently ride a motorcycle on public streets.	I was able to achieve my motorcycle endorsement with the added confidence of riding any bike i get my hands on.	Yes.	No I thought it was very well put together for anyone looking to receive there endorsement.

**SURVEY OF AMSAF SCHOLARSHIP WINNERS FOR 2016-17 YEAR**

6/20/2017

Entry Date	How did you benefit from taking the Motorcycle Training Course you received from AMSAF?	How did the AMSAF Scholarship personally benefit you?	Did the school provide everything that you expected?	Any final thoughts or impression on this program and what it has to offer.
4/26/17	I never rode before and after the training i was comfortable on my bike.	I am military and could have gotten free training but the spots were backed up. The scholarship allowed me to take the class soon with more in depth training.	Yes	It helped how the ridercoach put everyone at ease when starting.
4/26/17	The group sessions were nice to have other riders, and first time riders, to give input on different techniques and ideas. The course instruction was a nice touch, also being able to ride other types of bikes to feel the difference.	Being able to take classroom discussion directly to the course and "feel" what we talk about I believe was the biggest benefit.	Yes, and some. Aside from direct moto info, it was nice to receive other pertinent information outside of actual riding, like the AMSAF org, and insurance incentives, etc	I plan on taking further advanced courses just for the fun and atmosphere. I do believe that is the best way to gather info, even if you already ride.
4/26/17	The course gave me the confidence to get on a motorcycle rather than just thinking or dreaming about it.	My wife was out of work for over a year and I was working two jobs. I have wanted to take the class for very a year but the full price wasn't in the budget. The scholarship allowed me to follow through	The class was great and I learned a lot from the instructor. Taking the class makes you realize how much you don't know.	The program was really good. The only thing I would change is maybe another day of riding time.
4/26/17	Was a refreshing lesson on proper riding safety and handling	Saved me money on my rider safety class allowing me to take	Yes and than some the instructors were great	I think it is great to see a program make it affordable and so making it more appealing to take the motorcycle riding class.
4/25/17	I learned the fundamentals of motorcycle riding.	Saved me money.	Yes it did!	Wonderful coaches, and a great class!
4/25/17	Learned how to ride a motorcycle in a safe environment, felt very comfortable buying my first bike a week later and use it all the time now!	Cancelled my car insurance and the bikes insurance was the same price but for a whole year! also much cheaper gas and way more fun	absolutely and beyond. loved how Joel gave us gremlin bells for our bike :)	keep up the great work awesome this is available

**SURVEY OF AMSAF SCHOLARSHIP WINNERS FOR 2016-17 YEAR**

6/20/2017

Entry Date	How did you benefit from taking the Motorcycle Training Course you received from AMSAF?	How did the AMSAF Scholarship personally benefit you?	Did the school provide everything that you expected?	Any final thoughts or impression on this program and what it has to offer.
4/25/17	I benefitted by learning the correct way to handle a motorcycle and the techniques to stay safe.	The scholarship allowed me to afford the cost of the class.	Inland Valley did an excellent job. Learned everything and more.	This program provides an excellent service to riders. I hope it is around as long as there are motorcycles.
4/24/17	I got hands on training in and out of a classroom setting, I learned how to make turns easier and I am more aware of everything around me while riding.	I was able to get my indorsment. This is after I studied the handbook over and over for hours and tried the written test 2 times and still didn't pass, this gave me the hands on training &,riding experience I needed. to get my Mc licence.	Yes and then some. Awareness, experience as well as being a safer cyclest.	I was thankful for the solarship otherwise it would have taken me longer to save to go thru this corse. And being aware and a safer rider. Thank you AMSAF for the unbelievable training you provided me.
4/24/17	I'm a better more aware rider, attention to my safety as well as other riders and auto drivers has increased dramatically	It was rewarding, made it easier for me to attend and complete the class	Yes the Instructors were very knowledgeable they presented a great class as well as actual riding experiences	Great Class, I will recommend to anyone young or more mature ....
4/24/17	I am now more confident and feel my knowledge of a bike is better since taking the course.	Without the scholarship I would not have been able to afford it.	Yes it did and even more.	Really impressed how much is covered in a short time.
4/24/17	I was successfully able to obtain my cycle license and gain some great life saving knowledge.	It gave me the ability to obtain education and my motorcycle endorsement.	Everything and more.	Great program to boost the number of educated riders and safety on our roadways!
4/24/17	I was terrified of motorcycles my entire life, in fact totally against being around them and around "the people" the rode them. Now I respect the machine, the riders and I am an addicted and confident rider.	I would have never gone had we not went in a large group of friends and family - our large group could have never afforded to go without the scholarship. The scholarship information made me want to learn.	and more. The instructors were very good at encouraging safety first then building confidence at all levels.	This program took me from being paranoid around a motorcycle to I now I proudly ride an Indian Chieftain Motorcycle and learn more every time I hit the rode. Safety is always on the forefront. Without this program I would have continued cheating myself out of a whole new perspective of the beauty of the layout of our land. I continuously recruit people for your program and tell them I would gladly go back and do it with them again and again, I had more fun that weekend and learned more in those 2 days than I learned in 3 years of college.

SURVEY OF AMSAF SCHOLARSHIP WINNERS FOR 2016-17 YEAR

6/20/2017

Entry Date	How did you benefit from taking the Motorcycle Training Course you received from AMSAF?	How did the AMSAF Scholarship personally benefit you?	Did the school provide everything that you expected?	Any final thoughts or impression on this program and what it has to offer.
4/24/17	it helped me learn how to ride a motorcycle, which i've wanted to learn for a long time.	It helped defray the cost, and make the class more affordable for me.	It sure did. Our instructor with Inland Valley was very knowledgeable and did an excellent job on the course.	I'm thankful for the financial support!
4/24/17	It was very helpful to receive guidance and attention to any areas that can use improvement in order to drive safely	It gave me the opportunity to take this course which I am absolutely grateful	Yes. The instructors where very attentive and had great advise for improvements in riding	It's a wonderful program. Thank you
4/24/17	a greater appreciation for the responsibility of a motorcycle driver to drive safely	I was able to complete the course and learn to ride safely and responsibly	yes	I think this is a good program. It instills the awareness of both the risks and responsibilities of motorcycle safety. It contributes to safer riders.
4/24/17	I was able to attend the class with a friend. The course and instructors were awesome. I now have the benefit of insurance discounts and I'm licensed / fully legal.	Insurance discounted annually No pressure testing with a bike more controllable. Saved money towards my insurance payment.	Yes, and then some. Highly recommended.	I had only heard of this program through a friend. Didn't know it existed previously when I rode years ago. I wouldn't know who or where to ask if I didn't have the privilege of being advised by my friend, so maybe more awareness outlets. I will pass this info on. Pay it forward.
4/23/17	I learned a great deal from the course both written and most especially driving.	The scholarship provided me with the ability to take the class that I would have otherwise skipped and missed out on a lot of good information.	Yes The information was great, the instruction on the course was great also. Not sure if all the teachers are fantastic but ours was.	The driving course was difficult but the teacher was great and informative. We also learned from each other's mistakes and corrections. I'm thrilled I had this opportunity.
4/23/17	Safety , safety and safety! Very well done and increases overall awareness. I was very impressed.	I subsequently got my license and am now looking for a bike.	Yes, and more. The instructors were excellent and very professional. They both have many years of riding experience which adds to the course material .	I would highly recommend for cycle riders and feel that it increased my defensive driving skills for a car as well. This course is a must for riders of all experience levels.
4/23/17	I got my endorsement and learned a lot.	Helped financially and my donation helped a good cause.	HD Riders Edge was vey good.	Thanks for helping make more safe riders.
4/23/17	I got a great refresher course and was able to get my motorcycle license.	My husband and I were both able to afford the riding course through the AMSAF Scholarship. Thank you!	Yes, I really enjoyed it and the instructors were informative and personable. I left the course feeling very confident in my ability to ride.	Very good program, I was able to talk my husband into attending also, he too enjoyed the class. We have been riding all over the state. We tell every one about the AMSAF Scholarship.

**SURVEY OF AMSAF SCHOLARSHIP WINNERS FOR 2016-17 YEAR**

6/20/2017

Entry Date	How did you benefit from taking the Motorcycle Training Course you received from AMSAF?	How did the AMSAF Scholarship personally benefit you?	Did the school provide everything that you expected?	Any final thoughts or impression on this program and what it has to offer.
4/23/17	Reviewed my riding skills from years past and corrected a few bad habits that I had aquired upon resuming riding	Helped financially since I'm on a fixed income. Allowed me to take the course	Yes and then some. The ratio of instructor to students was about optimum without being a one on one training	I think it could use a little more attention to motorcycle verses large trucks. But, that is based on a long career of over the road trucking. A good many truck drivers aren't knowledgeable about bikes
4/23/17	Was able to learn how to ride safely	My husband was able to take the safety course	Yes	Loved it, thank you for the opportunity
4/23/17	I learned about motorcycle safety and felt confident enough to ride on the road	Made me feel like a safer rider.	Yes	I think everyone riding should be required to take these courses.
4/23/17	I learned the basics of how to operate and ride a motorcycle. Most importantly, safety!	During the course, it gave me the confidence to ride safe and prepare me to drive a motorcycle.	Yes	Great instructors!
4/23/17	I learned how to safely operate a motorcycle, and learned about basic necessities and skills when operating a motorcycle	I was able to get an actual license.	Yes, and the instructors went over and above the required for answers	It's was a great program, and offered a safe environment to learn how to rise a motorcycle in.
4/23/17	I learned to ride a motorcycle and ended up purchasing a motorcycle> I have enjoyed riding every time.	I was able to save money on class.	Yes	Class was taught very well.
4/23/17	I developed a much stronger confidence when riding. I learned a few things about motorcycles that I was previously unaware of. The class was a very enjoyable way to gain knowledge and obtain a motorcycle endorsement.	As a single parent, being able to take a course in motorcycle safety without having to pay the standard price was amazing. Im not sure I would have been able to take the course without the help from AMSAF.	Yes...and a little more. Great instructors with years of riding experience were able to keep the class fun and safe.	Fantastic opportunity for those wanting to be a better rider...especially those like myself with a limited means of income to spend on one.

SURVEY OF AMSAF SCHOLARSHIP WINNERS FOR 2016-17 YEAR

6/20/2017

Entry Date	How did you benefit from taking the Motorcycle Training Course you received from AMSAF?	How did the AMSAF Scholarship personally benefit you?	Did the school provide everything that you expected?	Any final thoughts or impression on this program and what it has to offer.
3/28/17	Technical knowledge of becoming a better rider.	This scholarship benefited me in a number of ways 1. Financially 2. Gave me the opportunity to become a much safer rider 3. Made the roadways safer by making me a safer rider.	Everything and then some. The instructors were extremely empathetic yet got the point across that they were trying to make in a very accelerated manner.	This program to me is essential to keep in proving on the cycling community by one bringing awareness and making it financially doable for most people. The instructors were top notch and made the learning process enjoyable which your program made possible for me to take...thank you.
3/23/17	The course gave me the confidence to ride my Honda Shadow 600.	As a brand new rider I passed the written test at DMV but didn't have the skills to ride. The course taught me not only how to ride but about the motorcycle as well!	YES!	I'm so happy that there was a scholarship available as I live in the White Mountains and as it was a 2 day course I had to pay for hotel, eating out and fuel. The scholarship is invaluable! AND the instructors were very knowledgeable and fun. :O)
3/15/17	my street riding skills have improved!	Financially helped by reducing the cost, allowing all 3 riders in my family the ability to take the class.	Yes!	Definitely should keep it open to the public; more training for everyone is best!
3/14/17	How didn't I benefit?! Truly, my instructor was phenomenal. Not only did I gain textbook knowledge, but the practical portions were so step-by-step that my fear was minimized and it made what seemed a daunting experience completely manageable.	I had been debating taking the course because it was a tight fit for my budget as I don't have much wiggle room. The scholarship made it so that it was financially feasible.	Yes, and then some.	Truly, could not have had a better experience.
3/14/17	The training course was excellent! I received important basic training on motorcycle Riding, safety, and maintenance.	I was able to take the training course because of the scholarship. I was not able to afford it by myself. I am very grateful for the scholarship, And I am proud to have participated in helping veterans.	The school was very professional and exceptional in its teaching. It was more than I expected, and I would recommend it to everyone.	The program was exceptional and I am looking forward to taking more advanced lessons through the school once I obtain a motorcycle.

<b>Entry Date</b>	<b>How did you benefit from taking the Motorcycle Training Course you received from AMSAF?</b>	<b>How did the AMSAF Scholarship personally benefit you?</b>	<b>Did the school provide everything that you expected?</b>	<b>Any final thoughts or impression on this program and what it has to offer.</b>
3/14/17	It was a great course. I learned skills even as an experienced rider. I received my certificate and therefore my license.	I was able to afford to obtain my license.	They provided everything. I was super happy.	Was very beneficial, thanks
3/13/17	It helped me get a skills and knowledge to ride safely on the street.	I got the motorcycle license from it.	Yes, it had a good standard for writing and practical portion for riding motorcycles.	I can ride safely on the street and feel more safe while riding
3/13/17	The Beginner Rider Course was absolutely amazing!! I learned so much from the many talented and seasoned rider coaches. The class prepared me and allowed me to be 95% more comfortable with riding and being on 2 wheels.	Learning how to ride has been a longtime goal of mine however, time, money and opportunity did not always coincide at the same time. Having the discounted fee of the scholarship program allowed me to make the time and opportunity easier.	Absolutely 100%!! The talented rider coached that taught my particular class, are extremely patient, kind and fantastic at what they do for this program. I did not know exactly what to expect, but the far exceeded any thoughts that I had on how amazing this course/program is.	You should be extremely proud of the work that your foundation does and the many people that benefit from your generosity, thoughtfulness and ability to spread the love of riding on 2 wheels. Integrity and compassion are rare traits these days and your foundation seems to have them both. I am extremely grateful for your scholarship program and my very best friend that loves me and thought of me when she heard of the open scholarship availability. Thank you for making my longtime goal a reality..
3/13/17	I did not have the funds for the course and this scholarship allowed me to pay for the class. The class was invaluable.	It allowed me to take the class. I feel safer having taken the course.	Absolutely. I feel safer and have a better understanding of safe riding.	It was easy to use and I would not change a thing. Thank you.
3/12/17	I learned how to ride the ride way and the safest way	It help me to be able to afford the class and obtain my license and to know the laws of riding	More then I expected	The instructors were very personable and very knowledgeable of the things they were teaching us and very hands on and that is so helpful for a person like me. Money very well spent

**SURVEY OF AMSAF SCHOLARSHIP WINNERS FOR 2016-17 YEAR**

6/20/2017

Entry Date	How did you benefit from taking the Motorcycle Training Course you received from AMSAF?	How did the AMSAF Scholarship personally benefit you?	Did the school provide everything that you expected?	Any final thoughts or impression on this program and what it has to offer.
3/12/17	The course helped so much with the basic skills needed to operate a motorcycle safely. The techniques learned to handle different situations we'll all encounter was priceless. The basic rider course should be a requirement to receive the endorsement.	I had just purchased my first bike and all the protective gear to go along with it. As you are aware quality gear is pretty pricey. The scholarship helped to offset some of the cost.	Yes the instructors were great! The ratio of class time to on bike time was perfect. The class designed really well to build a little with each new skill learned. The pace of the class was just right.	I think the basic rider course would 100% benefit any new rider as well as anyone who hasn't ridden in a while. I would definitely take a more advanced class to further my skills
3/12/17	I learnt to use both front and rear breaks at the same time. Also to push down on the handlebar in the direction of turning, it saved me in a turn on the freeway.	I have 2 kids and I pay child support, without the scholarship I couldn't have taken this course and would have had to take extra time off work to spend a day at mid.	Yes	I plan on putting my son's through the course.
3/12/17	I learned every necessary skill to be able to apply to riding on my own w838th my own bike	I am a single mom who wanted to learn to ride. #1 because it was on my bucket list and #2 because someone in my past had always said I couldn't do it	Yes and more. They were very patient and explained everything very well and answered any questions I had	I would Definitely do it again as a refresher
3/12/17	I didn't really know how to ride until that class. They were really professional and very knowledgeable.	It saved me a few hundred dollars.	Yes it did and more.	It helps new riders get started and more.
3/12/17	Learned proper management of riding a bike in all conditions and laws	Helped myself complete the course affordably	YES Ride classes were great	Continue this to allow for more educated riders
3/12/17	I got a better visual of how important motorcycle safety is I see that without knowing the proper skills of riding you will end up in a bad accident.	Without the help from AMSAF scholarship I wouldn't have had the money to take the safe riding course class.	Yes they over achieved in there class I know a lot more then I would ever have if I didn't take that class.	I would just like to say thanks and keep doing what you guys do the AMSAF scholarships and the desert wind safety class are both amazing.

**SURVEY OF AMSAF SCHOLARSHIP WINNERS FOR 2016-17 YEAR**

6/20/2017

Entry Date	How did you benefit from taking the Motorcycle Training Course you received from AMSAF?	How did the AMSAF Scholarship personally benefit you?	Did the school provide everything that you expected?	Any final thoughts or impression on this program and what it has to offer.
3/12/17	It helped me gain basic motorcycle skills and built my riding confidence. I appreciated learning things I would not have intuitively learned like accelerating through a turn or counter steering.	It saved me a good deal of money, incentivizing me to take the course and possibly take a second course.	They did, I only had to bring appropriate clothing and gloves.	I am very appreciative of this program and think every rider should take the MSF and the AMSAF scholarship makes it financially possible.
3/12/17	Taught me the basic fundamentals of a motorcycle and lots of great information on how to safely ride a motorcycle great tips and tricks	The scholarship personally benefited me because I've always wanted to ride a motorcycle but honestly cannot afford to pay the whole \$300_400 to go to the course but I still wanted to make sure I had proper training it is a great source	The school definitely provided everything that expected it was easy and fun however I wish it was definitely a little bit more of one on one	Greg marback instructor he was very thorough, funny, understanding and of course provided us with all the great information that we needed to be successful in riding a motorcycle
3/12/17	I learnt the basics of motorcycle driving, safety procedures and group riding techniques	Leant to handle motorcycles efficiently, developed confidence in riding and became eligible for license	Yes, it fulfilled my expectations and more	Great program and highly recommended. Would also be nice to include - pillion riding techniques, heavier motor bikes
3/12/17	Yes multiple benefits ranging from insurance discounts to knowing more helpful tips to safely navigate the streets.		Yes and more was witness to a lady lay her bike down upwards of five times.... I thought we were taking the experienced Riders course. But instructors were amazing and safe..... She didn't pass the endorsement test.	The program was amazing and in my opinion a base version should be taught to the general public taking there class D license. It would greatly increase the safety of everyone in our great state.

Entry Date	How did you benefit from taking the Motorcycle Training Course you received from AMSAF?	How did the AMSAF Scholarship personally benefit you?	Did the school provide everything that you expected?	Any final thoughts or impression on this program and what it has to offer.
3/12/17	It was a great refresher course for me. I got my motorcycle endorsement in 2008 and never rode since then. This was my opportunity to relearn the skills after 8 years. AMSAF coach Greg (do not know his last name) was good.	I have been jobless for 9 months and its on my list to buy a motorcycle as soon as possible. It helped me to be prepared for it ahead of time. Personally it helped me to snap out of my jobless drudgery and kicked some life into me. thank u so much!!	Yes although the timing is short. 2 days is not enough to learn all the skills effectively.	The class should be offered over a period of 4-5 days in short spans. Will help students learn, practice and retain. A fire hose learning style washes off after a month. So spreading it across a week with shorter time spans will be a different experience. Also it would be great if you can offer follow up program to coach people on a rented/ personal motorcycle. It will help students gain an extra level of confidence before they can venture out on the road. I might have to repeat/take a class again before I buy a bike and get on the road anyways. This would be a great opportunity for AMSAF to enhance the learning experience and expand their value proposition too. (You can write me a check for this marketing idea.Thank you very much)
3/12/17	As a first time rider the skills I learned were invaluable.	Without it I couldnt of afforded to attend.	The school was extremely helpful and it provided more than everything that I expected.	Program is great for people who really want to get into motorcycles but the first step of professional instruction is not within their budget. It was a great post I've environment with like minded people.
3/12/17	As a first time rider the skills I learned were invaluable.	Without it I couldnt of afforded to attend.	The school was extremely helpful and it provided more than everything that I expected.	Program is great for people who really want to get into motorcycles but the first step of professional instruction is not within their budget. It was a great post I've environment with like minded people.
3/12/17	The course was taught very well n informatively and I learned so many defensive maneuvers in real life situations.	I received a discount on my motorcycle insurance	Between the classroom and the hands on driving the bike it was so much fun n it taught me to be a very defensive motorcycle driver. I would recommend the course to anyone that needs to get a motorcycle license or a refresher course on basic laws and life saving techniques.	I'm so happy I took the course our instructor Steve was amazing n he knew so much about the motorcycle curriculum and everything else that was taught on the Riding course and made it fun and informative for our whole class !!!

**SURVEY OF AMSAF SCHOLARSHIP WINNERS FOR 2016-17 YEAR**

6/20/2017

<b>Entry Date</b>	<b>How did you benefit from taking the Motorcycle Training Course you received from AMSAF?</b>	<b>How did the AMSAF Scholarship personally benefit you?</b>	<b>Did the school provide everything that you expected?</b>	<b>Any final thoughts or impression on this program and what it has to offer.</b>
3/12/17	I learned critical, life-saving skills and good technique to keep myself safe while riding. I will be recommending AMSAF and Team Arizona to all of my friends.	It saved me money which I used to invest in safety gear -- very important, as I learned from the course.	At first, I felt that I wasn't getting enough practical learning experience, but I've since realized that I was taught important skills which I've thankfully been able to apply as I continued to learn on my own time. In other words, yes.	I would absolutely implore anyone interested in learning to ride safely and responsibly to apply for an AMSAF Scholarship. It was a very fulfilling experience and I'm grateful for it.
3/12/17	It benefited me by giving me a great starting point of knowledge to start riding.	It allowed me to take a great course during a very restricted funds time in my life.	The school provided everything and more than I could have ever hoped.	This is a great program for new riders and anyone looking into getting a bike in the near future.
3/12/17	This course has already saved my life on a few occasions while riding.	It made it really affordable to take the course that has helped me be a safe rider.	Yes.	Awesome program, I am very that this program exists.
3/12/17	Taking the course allowed me to get hands on experience on a motorcycle before trying to teach myself how to ride.	Without the scholarship, I might have skipped out on taking an MSF course.	Yes, the overall experience was good.	I love what you guys are doing, this scholarship makes taking a class a lot more affordable. Many people will be able to benefit from an approved course that wouldn't otherwise be able to due to financial restraints.
3/12/17	Discount on Motorcycle insurance! Sharpened my riding skills a plus at 57 yrs.	At my age (57), riding in Phoenix traffic!	O yah!	Think every Motorcycle rider should experience the after effects of successful completion of Class and course.
3/12/17	It helped me learn the skills and confidence necessary to ride a motorcycle safely.	It helped offset the cost of the tuition which enabled me to afford it.	Yes. They did a fantastic job and the instructors were extremely knowledgeable and friendly. They really helped boost everyone's confidence.	I think it is a fantastic program and I've told so many people about it.
3/12/17	Made me comfortable and competent rider	Being a military family and a strict budget it allowed me to get my license and learn the correct way to ride	Absolutely	Thank you so much for everything
3/12/17	Really learned how to ride a motorcycle correctly and safely	I was able to take the course and not financially put me behind	Yes	No, it was an amazing course

**SURVEY OF AMSAF SCHOLARSHIP WINNERS FOR 2016-17 YEAR**

<b>Entry Date</b>	<b>How did you benefit from taking the Motorcycle Training Course you received from AMSAF?</b>	<b>How did the AMSAF Scholarship personally benefit you?</b>	<b>Did the school provide everything that you expected?</b>	<b>Any final thoughts or impression on this program and what it has to offer.</b>
3/12/17	i thought i was a good cycle rider until i took thiscourse. i learned so much that i didnt know.	i am much more alert on the road while driving	not at all. i figured ir would be boring, kinda like traffic survival school. but it was great and i reccomend it to everyone	it is beyond words. this course is for the beginner to the advanced.
3/12/17	My wife was able to get her motorcycle endorsement to start riding. This is something she wanted for a while but we couldn't afford the normal cost of the course.	This helped us afford the course to get the endorsement and trained properly on a bike.	Yes it did.	Great program for people to get riding.
12/6/16	I was able to obtain my motorcycle endorsement.	Due to the cost of the class I most likely would have been able to attend the course.	Yes.	Great instructors! Very helpful and assisted me with all questions and took the time to walk me through the areas I was struggling.
11/20/16	i learned things i would have never learned if i didnt take the class being with people like me was a blessing	yes, it takes less stress on my mom worrying about a \$250 payment and thas a help for what where going through	it thought me more than i actually expected and Mr Kevin my instructor made it fun	its an amazing program and i would reccomend it to any one struggling financially
11/18/16	Learned proper techniques for turning and braking. The academics were very informative. Gained comfort in riding.	This helped me financially, as I would not have been able to afford the course otherwise.	Yes, they were professional and knowledgeable, patient and courteous.	Having Motorcycles available for us to ride was very helpful. The academic portion gave us opportunities to work through scenarios to prepare us for real life situations.
11/18/16	now I can go to work on motorcycle	save money on gas	yes	thank you its the best program
11/18/16	I always felt that a \$300 class to learn to ride was a bit steep. Then I went to Team AZ's website and saw that AMSAF had a scholarship. If it wasn't for the scholarship I may not have gone to the MSC.	I was able to go to the class and wasn't worried about the class being overpriced.	The class was amazing! Oddly enough I was the only one in the class that didn't know how to ride. Everyone was really nice and helpful. Everyone including the teachers were encouraging and gave tips.	The class was awesome and very fun. I now know how to ride motorcycles and learned a ton more than I expected.

**SURVEY OF AMSAF SCHOLARSHIP WINNERS FOR 2016-17 YEAR**

6/20/2017

<b>Entry Date</b>	<b>How did you benefit from taking the Motorcycle Training Course you received from AMSAF?</b>	<b>How did the AMSAF Scholarship personally benefit you?</b>	<b>Did the school provide everything that you expected?</b>	<b>Any final thoughts or impression on this program and what it has to offer.</b>
11/18/16	Learned valuable safety and mechanical skills for riding my motorcycle. I have been riding for many years and learned things that I never knew before.	Gave me more confidence that I was being as safe as possible and helped empower me to be a more proactive rider.	It certainly did. I did not really know what to expect and it was a classroom setting (like the website explained) but there was plenty of time for one on one coaching.	What a valuable experience and one that I truly gained a lifetime of knowledge from. I have future plans to come back and take another course. Thank you so much for allowing me to take this course through the scholarship program. Without your assistance, I would not have been able to do so.
11/17/16	I think I have a better understanding of hazards in traffic, and better understanding of how to be aware of potential problems that develop. To always have a plan "B".	Cost of course. I traveled 450 miles round trip, plus had to stay at a motel, and eat in order to take the class. nothing was available in the Page, Az. area.	I would like to think more. I believe it flat out has made me a better driver. More aware of all surroundings, and to look for things developing in front of me better to avoid hazards.	It was great! The instructor was very good, and answered all questions from the class, I made some new friends in the process.
11/17/16	I was able to achieve a clear vision of what a successful rider needs to be aware of and how to avoid and/or overcome dangerous situations.	I was able to receive my endorsement along with my son. What a fantastic memory for us. Now we have another bike and a lot of practicing ahead of us.	Above my highest expectations.	Fantastic value, unbelievable training. Thank you for offering this scholarship.
11/17/16	I gained the confidence in skills & learned the safety I needed to comfortably start my motorcycle riding experience.	I was able to afford the course without struggling to pay other bills on time. The scholarship made the course much more affordable.	Yes, the school was very helpful & the instructors were extremely knowledgeable.	I've already told a couple people who are considering taking a course to apply for the scholarship. That way financial constraints are not a deterrent.
11/16/16	This training was very helpful to learn about the basics of riding and what the important things are to take care while driving in city and outsidess. Overall helped me get to know more about riding.	Personally, I was very happy to have received this. I could not afford for 300\$ plus expenses for riding classes and this helped me out financially. I would like to thank for them for their prompt reply and calls to answer my queries.	Yes, it did. It was very nice to meet all these people and have this riding training together with them.	Awesome!! Definitely take it if you are new to riding or experienced rider moving to USA from some other part of World.

<b>Entry Date</b>	<b>How did you benefit from taking the Motorcycle Training Course you received from AMSAF?</b>	<b>How did the AMSAF Scholarship personally benefit you?</b>	<b>Did the school provide everything that you expected?</b>	<b>Any final thoughts or impression on this program and what it has to offer.</b>
11/16/16	Was able re-learn how to ride safely after 30+ years off a bike.	I could afford (with the scholarship) to go to school with my son and later take a road trip with him, helping him decompress from extended overseas deployment.	Yes. Though the instructor could have been more dynamic.	None. Thank you.
11/16/16	ultimately I feel safe on a motorcycle now I never rode one until the class so I learned a lot	it was great because it made it affordable for me. I truly feel if the class was cheaper everyone who rides would take it	yet it did thanks again	great program but I don't think enough people know about it
11/16/16	I was able to learn about motorcycles and how they operate, going in thinking they are like regular bikes and they are not because they have multiple gadgets, hey have a lot involved than just pedals. It taught the rules of the road and to be safe.	IT saved me in my fiancés and it allowed me to become more confident and free spirited.	It did, everything and more then I thought I needed it.	It was really easy in class and the both instructors are compassionate in the process of our success.
11/16/16	Was able to get a great understanding of how to ride a motorcycle and the safety concerns. The course showed me what areas I need to work on and how to improve those sections	I was able to save a tremendous amount of money and assured me in taking the course.	Yes. It guided me to better understanding and closing the fear of being ran over.	This program is very helpfully for beginner motorcyclist and new comers.
11/16/16	I learned to properly ride a bike	Made the class affordable	Yes	wonderful program to help everyone in motorcycle riding and safety
11/16/16	I feel like I'm a safer rider now. Didnt have any experiende going into the training, I learned a lot about everything.	I feel safer and more confidant	Yes	I feel it should be a requirement

6/20/2017

Entry Date	How did you benefit from taking the Motorcycle Training Course you received from AMSAF?	How did the AMSAF Scholarship personally benefit you?	Did the school provide everything that you expected?	Any final thoughts or impression on this program and what it has to offer.
11/15/16	It is incredibly helpful to go through the course on the same bike I ride on the street and benefit from expert coach/instruction. The more advanced techniques not in the basic course improve my odds of avoiding accidents and injuries.	Without the scholarship it is unlikely I would have continued my training. My safety as well as the safety of others I come across on the road is more likely to be assured after this training.	Yes. Team Arizona is a model of professionalism and effective teaching.	Only that the riders that don't take advantage of follow up training are unlikely to know what they are missing. Scholarships get more people in these courses who will then tell other riders how valuable it can be.
11/15/16	The course gave me the confidence to ride a motor cycle.	The scholarship allowed me to afford the course.	Yes the school provided everything I expected.	I was very impressed and satisfied with the course. I gained enough confidence from the course to purchase my first motor cycle. I will be taking advance courses as soon as I can.
11/15/16	I was able to reacclomate to riding.	I could not fit regular priced training into my budget but the scholarship allowed me to take the class.	Yes absolutely!	It was great but very physically taxing due to the size of the class... too many people which made it harder to facilitate the class.
11/15/16	Inland Valley taught me how to ride a motorcycle the correct way. I learned how to control my motorcycle better especially in turns and slow speeds. My instructor was very patient and made sure everyone in the class understood what to do.	The scholarship allowed me to take the class at a very discounted price. I could not of afforded it without their help.	Yes the school did provide all expected and then some. Instructors made sure everyone understood what he was teaching us to do and helped us accomplish what we needed to get our endorsement.	I have given the scholarship info to about 7 people and told them they need to take this course. I learned so much from it and enjoyed going. I am hoping to attend the second class to learn more and gain more confidence in myself while ridding my motorcycle in traffic.
11/15/16	I was able to achieve a clear vision of what a successful rider needs to be aware of and how to avoid and/or overcome dangerous situations.	I was able to receive my endorsement along with my son. What a fantastic memory for us. Now we have another bike and a lot of practicing ahead of us.	Above my highest expectations.	Fantastic value, unbelievable training. Thank you for offering this scholarship.

Entry Date	How did you benefit from taking the Motorcycle Training Course you received from AMSAF?	How did the AMSAF Scholarship personally benefit you?	Did the school provide everything that you expected?	Any final thoughts or impression on this program and what it has to offer.
11/15/16	At 74 I have never ridden a motorcycle before so the only way I would ever ride is to go through a safety course (as you get older you really do get a little smarter). I knew that it would be geared for people with no experience, so it was perfect.	Being retired an on a fixed income the scholarship made the class possible. I was surprised that more people didn't take advantage of it. Getting into a new sport can be expensive (helmet, gloves, boots etc), so having the scholarship really helped.	The school couldn't have been better. I had a very patient and qualified coach, who took the time to make sure everyone GOT IT. before moving on to the next phase of the training. The safety portion was presented in a way that made it easy to understand, and the ramifications if you did it wrong. It has even made me more aware of whats around me when driving my car..	I think that the state should put more money into this program and make it required before getting your licence (at least the safety portion). You can always learn the fundamentals of riding, but safety aspects are often forgotten  Thanks again for the opportunity to learn to ride SAFELY
11/15/16	Helped understand the importance of practicing and a refresher of what I was taught.	AMSAF Scholarship was great to receive and encourage me to drive safe.	Yes the school was helpful and patient.	I appreciate AMSAF for their hard work and supporting the community by promoting motorcycle safety.
11/15/16	Learned to safely operate a motorcycle. Learn a new enjoyable method of driving.	Reduced my expense and allowed me to take the course sooner.	Yes	
11/15/16	Agility improved, especially at slower speed. Good ridership basics and habits. Emphasis on always wearing full safety gear. Passed m/c driving test for AZ license. Gave me more confidence on my much heavier cruiser.	Allowed me to take the basic ridership course. See above benefits. Helped me lessen impact of recent crash with lifted pickup truck. May have saved my life.	Absolutely, and more.	I really appreciated the use of the lighter practice motorcycle. Instructors were top-notch, thoroughly knowledgeable and professional.
11/15/16	I learned how to ride a motorcycle. I had no clue before the class. I also became more confident and learned a lot of things that I could have learned the hard way.	I was able to afford the class. I couldn't have taken the cours without the scholarship.	More than I expected.	Program was great and very needed.

11/15/16	I received my license to legally drive a motorcycle and learned how to safely ride by being more cautious and aware	I lost my job right after signing up so it helped keep my bills paid by saving me money	The school was more than i expected	I liked the class and instructors I'm recommending the class to others
11/15/16	I received my license to legally drive a motorcycle and learned how to safely ride by being more cautious and aware	I lost my job right after signing up so it helped keep my bills paid by saving me money	The school was more than i expected	I liked the class and instructors I'm recommending the class to others
11/15/16	The biggest win was learning and applying what I did through the course! I felt much more comfortable and confident riding after this course. The AMSAF scholarship is what mad this possible, though, which I am very grateful for.	Without the scholarship, I would not have been able to take this training and be more confident and comfortable on the road for the safety of myself and other motorist.	I would've liked more advanced techniques and knowledge, but it was perfect for the level of the course it was, though.	I think it's great and I hope they are able to continue to offer this opportunity as I believe it stands to benefit everyone on the road.
11/15/16	The course allowed me to learn the academic basics of riding a motorcycle on the open road and basic motorcycle handling skills. I learned a great deal from the Instructor Kevin and felt much more comfortable on a motorcycle after the course.	It allowed me to take the course without worrying about the cost.	The IVMST course was well designed, and professionally taught. It definitely met and exceeded my expectations.	I am very grateful to have taken the course and look forward to taking the Advanced training.
11/15/16	I learned skills that will help me reduce risk to myself and others as I continue my journey on two wheels.	The scholarship made it more likely that I would attend the class by reducing my personal expense.	Yes	I will consider taking another class as my skills develop.
11/15/16	I learned the proper way to ride. My husband had taught me certain ways which ended up being incorrect. Also I learned safety.	I didn't have all the money to take the course and really wanted to so it helped me alot.	Yes it did and more.	The program is wonderful. While sometimes I felt they were a little hard on me I realized at the end that it only made me better. My husband and I both took it and benefited.

<b>Entry Date</b>	<b>How did you benefit from taking the Motorcycle Training Course you received from AMSAF?</b>	<b>How did the AMSAF Scholarship personally benefit you?</b>	<b>Did the school provide everything that you expected?</b>	<b>Any final thoughts or impression on this program and what it has to offer.</b>
11/15/16	Was able to overcome some bad habits that I developed over the years.	Made me a more confident rider.	Yes, the instructors were hands on and coached you through out the day.	Since taking the class I've recommended it to everyone I know that rides.
11/15/16	The course had a lot of great information that will help keep me safe for years to come.	I was able to take the basic rider course and earn my endorsement. The money I saved from having been awarded the scholarship was used toward safety gear.	Yes.	It is a rewarding experience albeit it does require a tremendous amount of mental and physical stamina.
11/15/16	I was able to get my motorcycle license.	The course really helped me get comfortable with being on a motorcycle and also taught me the fundamentals of riding one.	It did and more so. I really enjoyed the course and it was very beneficial to me taking the next steps in getting a license and owning a motorcycle.	Excellent program and I think everyone who rides should be required to take one. I am interested in taking the advance courses in the future.
11/15/16	I was able to get my motorcyclist license, and learn about how to safely operate a motorcycle.	It was an amazing cost savings.	Yes	It is a very good program that I would recommend to everyone interested in getting their license.
11/15/16	Good riding habits.	Saved me \$200.	Yes	Offer an advanced rider scholarship too.
11/15/16	Fine tuned a few skills that needed polishing.	The money savings and that was probably enough to get me off my ass and to take the class.	Absolutly	I had no issued with it but two of my friends kinda stumbled thru it. I had to walk them thru. 1. Hear about the scholarship, then try to determine which class/school then apply then wait for the scholarship number so when you registered it didn't charge you.
11/15/16	Getting back to basics. Always a good thing after having done something for a very long time.	The price is great. Meeting new likeminded people was good. Being able to help absolute beginners was satisfying. The experience must be better than that at the DMV!	Yes, and more; supplying bikes was a pleasant surprise. Thx!	Our instructor is knowledgeable to get the message over clearly and accurately yet informal enough to reduce stress amongst beginners.

<b>Entry Date</b>	<b>How did you benefit from taking the Motorcycle Training Course you received from AMSAF?</b>	<b>How did the AMSAF Scholarship personally benefit you?</b>	<b>Did the school provide everything that you expected?</b>	<b>Any final thoughts or impression on this program and what it has to offer.</b>
11/15/16	I was able to learn to ride in a comfortable environment with other beginners and was not intimidated because we were all at the same level.	I was able to finally accomplish a goal of mine that I was not able to accomplish before due to the cost of the class being so high.	Yes, however I was a bit disappointed when our first day out on the course ended early due to us finishing the exercises so quickly. I expected class to end at 3 p.m. and we ended somewhere around 1:15 pm. I would have liked that extra time to practice some of the skills we had learned earlier in the day. I would have felt more confident for the second day of training.	I think it is a great program and I am glad I went through the course.
11/15/16	I was taught the basics for safe riding.	It allowed me to be able to afford the training class.	Yes	I think it was great!!!!!!!!!!!!
11/15/16	I received the training needed to safely operate a motorcycle safely with confidence and received my M endorsement on my license.	My husband and I were able to take the course together, which was not only good for us personally, but it saved us money so we're could get gear sooner than later.	Yes	I have recommended it to many people, anyone that has said they want to get their endorsement.
11/15/16	i gained a better understanding of how to safely maneuver the road both with a motorcycle and, by extension, with a car.	it made getting one step closer to being able to ride regularly a big possibility.	it provided everything i expected and more.	i really can't think of any criticism
11/15/16	Learned a lot and went from not knowing how to ride to knowing how to ride.	I would not have been able to take the class at full price so it gave me the opportunity to take this course.	Yes	This is a great program
10/12/16	It helped me to learn new skills and improve on what I knew. It also taught my sons to be safe when they decide to ride.	I payed for my three sons and daughter in law. It saved me a lot of money, thank you.	Yes it did and once I'm ready for the next advanced class I'll register for it.	Everything meet my expectations. Instructors were great in class and out on the field.
10/12/16	Was able to get proper training as new driver and obtain endorsement.		Yes but wish offered dirt bike training	Please offer dirt bike training

**SURVEY OF AMSAF SCHOLARSHIP WINNERS FOR 2016-17 YEAR**

6/20/2017

Entry Date	How did you benefit from taking the Motorcycle Training Course you received from AMSAF?	How did the AMSAF Scholarship personally benefit you?	Did the school provide everything that you expected?	Any final thoughts or impression on this program and what it has to offer.
10/10/16	The motorcycle training course gave me confidence and also let me practice the skills necessary to remain safe on a motorcycle, in all traffic situations and weather situations. I will be ready to take the next level of classes soon.	It would have been harder for me to find the cash to pay for the course. The reduction to \$100 made it doable. It also gives me the feeling that the State of Arizona wants motorcycle riders to be educated and safe on the highways.	The instructors were very knowledgeable and patient. Especially patient. Also the students were respectful of the ability levels of the other students. It was a perfect storm - instructors and students- high caliber of each.	I have always encouraged motorcycle riders to have formal education. It helps prevent (and sometimes cures) bad habits. I had my youngest son in 2007 take this course, and my grandson in 2015 take this course BEFORE they bought their own motorcycles. The fact you can go into the MVD and not have to take the written or road test is a real plus. :-) I accidentally found out about the scholarship on the Internet and I tell everyone about it, especially friends with kids that want to ride. It gives the kids 'confidence' and the parents 'peace of mind'. Also, it would be good to tell the students who don't already have an AZ driver's license, that they must take a 'rules of the road' type written test at the MVD. They really have to get the book and study, or they will fail the test. We had a couple of college students in our class and they didn't know that.
10/10/16	Had been riding two wheelers off and on for years, this was a new experience for me and really enjoyed the instruction and the things I took from the class to use while riding	Was cheaper of course, but I learned, things that are different from riding a two wheeler.	Yes and more, I expected a scripted by the numbers class, however, the instructor stayed with the curriculum, one would not know it.	Keep up the great. Instructors took time for individual attention where needed. They were well training and provided excellent information.
10/9/16	I learned how to have fun while being safe on a motorcycle	I was able to save money and still get valuable info.	Everything and more	keep it up
10/8/16	1. Learned about various training for safe riding as well as defensive riding.	First, receiving better insurance rate. Second, able to join the American Legion Riders group.	Yes, both good classroom and track training.	Class and track training are both very comprehensive. Testing procedure is fair.
10/8/16	I received a good systematic grounding in how to safely ride a motorcycle. This will help me enjoy riding much more!	I was able to afford the course and will now be a safer, more-informed rider. Had I not been awarded the scholarship I almost certainly would not have taken the course.	Yes	The value of this class cannot be underestimated. I will now be a safer driver and this will help make me and others safer on the road.

**SURVEY OF AMSAF SCHOLARSHIP WINNERS FOR 2016-17 YEAR**

6/20/2017

Entry Date	How did you benefit from taking the Motorcycle Training Course you received from AMSAF?	How did the AMSAF Scholarship personally benefit you?	Did the school provide everything that you expected?	Any final thoughts or impression on this program and what it has to offer.
10/8/16	I got my license without doing it with the MVD and even though I've ridden for 15 years I still learned something new and learned to make my bike do things I didn't know it could.	They made the price more affordable. Without the scholarship, I may not have had done the class.	Everything and more.	It's a great program and because of it, more riders are taking the course and honing their skills. It also helps prevent more accidents from even happening by learning accident avoidance and impressive ways to handle the bike.
10/8/16	I got my license without doing it with the MVD and even though I've ridden for 15 years I still learned something new and learned to make my bike do things I didn't know it could.	They made the price more affordable. Without the scholarship, I may not have had done the class.	Everything and more.	It's a great program and because of it, more riders are taking the course and honing their skills. It also helps prevent more accidents from even happening by learning accident avoidance and impressive ways to handle the bike.
10/8/16	The instruction was very comprehensive which helped even the most inexperienced riders but was also very helpful for those who are experienced yet want to learn the proper technique.	The scholarship allowed me to experience riding and quality instruction with a minimal investment. I would highly recommend the class to anyone wanting to experience motorcycle riding.	Yes, the instructors were very patient and engaging. They made the class feel comfortable and confident allowing us all to learn more quickly.	The class is a tremendous benefit to all who take it. I will definitely consider more classes in the future.
10/7/16	I rode with confidence and knowledge. Road and safety knowledge provided In class Is really priceless.	The scholarship allowed me to take the course comfortably within my budget.	The school provided me with everything an much more than I expected.	I believe that this program is especially important for new riders, and essential. What I've heard from knowledgeable and experienced riders is that they also felt they gained much knowledge by also taking this course.
10/7/16	I was able to take this training with my son. This in itself was an awesome experience. He at 36 and me at 61 are new to riding and our instructor was truly awesome. The class was small so it allowed us time to practice our skills.	Personally I feel confident to go out and continue to improve my skills. Im still nervous when I go out but I feel so much better learning to ride the correct way. This has been a personal goal for me to ride.	It provided everything and more than I expected.	Thank you so much. I know my son would and I would still be struggling to complete our testing and become licensed!

<b>Entry Date</b>	<b>How did you benefit from taking the Motorcycle Training Course you received from AMSAF?</b>	<b>How did the AMSAF Scholarship personally benefit you?</b>	<b>Did the school provide everything that you expected?</b>	<b>Any final thoughts or impression on this program and what it has to offer.</b>
10/7/16	Wow I feel so much safer!!! I would recommend to everyone.	Yes	Yes very informative!!!	I think everyone should take the course just going to the DMV would have never taught me what I learned in this class and the instructor was awesome.
10/7/16	It was an awesome class and really prepared me for riding! I learned so many things that I would not have if I hadn't taken the class. It made getting my endorsement easy since the training and test were done during the same day/s.	I was able to save \$200 on the class which really helped. It gave me the opportunity to purchase my riding gear with the money I saved.	Yes! I was very pleased!!!! And highly recommend to my friends.	I think this program is amazing! The program helped me stay safe on the street riding and made the class affordable for me!
10/7/16	It was very good at helping those who had never even been on a motorcycle before. So being able to go from a complete beginner to passing the class was great.	It helped me to finally get my motorcycle licence which I've wanted to for awhile now.	Yes it did	An awesome program!
10/7/16	I learned how to (safely) ride a motorcycle! Learning to ride has been a long time goal!	Personally I overcame my fear of riding. I was very nervous and I am still as a new rider. The quality of the training helped a great deal.	Yes and then some. I was very happy with the training facilities and the bikes available to ride.	Quite frankly I could not be more grateful to have received this scholarship. Achieving one of my last life goals means the world to me. Thank you!
10/7/16	I learned how to operate a motorcycle. I had never ridden before.	As a fulltime student, finances are tight and I would not have been able to afford the course until next summer if I hadn't received the scholarship!	Yes and more. They gave me more confidence through their encouraging style of teaching!	The course provided the basics, and the instructors I stilled a love of riding. It was extraordinarily beneficial for any rider!
10/7/16	Learned a lot about basic safety and how to ride properly	I just switched jobs and didn't have enough money to pay for the class	Yes and then some. Instructors truly cared about riders.	I recommended it to many of my friends
10/7/16	Proper professional training is important for safe performance	Made it affordable	Yes	Excellent program. Hope it continues. Perhaps provide scholarships for advanced training too.

**SURVEY OF AMSAF SCHOLARSHIP WINNERS FOR 2016-17 YEAR**

6/20/2017

Entry Date	How did you benefit from taking the Motorcycle Training Course you received from AMSAF?	How did the AMSAF Scholarship personally benefit you?	Did the school provide everything that you expected?	Any final thoughts or impression on this program and what it has to offer.
10/7/16	I am having to take the class again that said it made me realize what I needed to work on. I have and will be in the class next week and without a doubt will be passing the class.	I would not have been able to take the class until probably this time next year if it were not for the scholarship.	Yes i was the one that selected a bik to small for me	It was the greatest decision i have made to learn a new skill i have always wanted to build.
